Problem Description

Volkswagen has determined that certain internal use vehicles were sold without documented confirmation that they were built to Volkswagen's production standards, and/or the vehicles had possible modification(s) made during their internal use period for which documentation may be incomplete or could not be verified. Volkswagen is not aware of any accidents or injuries as a result of this issue. Volkswagen cannot specifically identify a safety risk. However, if a vehicle does not meet all regulatory requirements, there could be an increased risk of a crash, fire, or injury.
