SAFETY RECALL NOTICE: 21V333

TO: Affected KME Dealers

KME decided that a defect which relates to motor vehicle safety exists in certain model year 2012-2021 KME vehicles manufactured from September 2011 through March 2021.

Vehicles included in this recall have an engine fuel rail assembly that may develop leaks, which may result in an undetected prolonged diesel fuel spray. A leak involving spraying/misting fuel in the presence of an ignition source may increase the risk of fire.

Owners will be directed to contact their local Cummins Service Center to have their vehicle(s) remedied.

Please be reminded that it is a violation of Federal law for you deliver a new motor vehicle or any new or used item of motor vehicle equipment covered by this notification until this defect has been remedied. Substantial civil penalties apply to violations of this law.

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact KME Customer Service at (570) 669-5230.

Sincerely,

KME, Inc.
