### **Involved Components :**

Component Name 1:	Suspension trailing arm
Component Description :	This trailing arm connects the wheel carrier to the front axle carrier, serving as a suspension guide on the bottom side of the front axle of the vehicle types Panamera (971) and Taycan (J1, Y1A).
Component Part Number :	9J1407152D, 971407152R

#### **Supplier Identification :**

#### **Component Manufacturer**

Name: THK RHYTHM AUTOMOTIVE GmbH

Address : Fichtenstrasse 37 Düsseldorf Foreign States 40233 Country : Germany

### Chronology :

Mid of March, 2021, Porsche was informed about 3 vehicles with broken suspension trailing arms at different mileages (no accidents). These occurred March 1, March 2 and March 10 2021.

Subsequently, the malfunction logs of the sub-supplier were requested to understand if these three defects were isolated cases.

In addition, it was investigated if the defects might be differentiated between fatigue fractures and forced fractures.

It has also been discovered that a particular production combination 'Production date & Tooling set up & Forging' significantly increased the probability of producing defective components and that this combination could only occur with certain load groups (of the trailing arms).

In parallel to the above analyses, Porsche was informed about a fourth incident which happened in the meantime (no accident as well).

The analyses and investigations further revealed, that in connection with the defect, a loss of control might occur when braking the vehicle.

May 10, 2021, after final investigation Porsche decided to conduct a voluntary recall for the affected vehicles, out of abundance of caution.

### **Description of Remedy :**

Description of Remedy Program : The subject front lower trailing arms will be replaced with new lower trailing arms produced to the design specification.

The information contained in this report was submitted pursuant to 49 CFR §573

How Remedy Component Differs from Recalled Component :	The remedy components are manufactured within the original design specification.
	The parts supplier production process was brought back to design specification beginning March 02, 2021 by implementing a 100%-check of all delivered trailing arm billets from the sub-supplier.

Description of Recall Schedule :	Dealers and Owners will be notified of this recall on or before July 16, 2021.
Planned Dealer Notification Date :	JUL 16, 2021 - JUL 16, 2021
Planned Owner Notification Date :	JUL 16, 2021 - JUL 16, 2021
