RE: Affected models:
2020 – 701 Enduro LR

Dear Husqvarna Motorcycles Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Husqvarna Motorcycles North America, Inc. has decided that a defect which relates to motor vehicle safety exists with the 2020 701 Enduro LR. On affected motorcycles, it is necessary to install two newly designed fuel lines with an additional clamp that position the fuel lines away from the contact points on the front fuel tank to prevent abrasion of the fuel lines, which could result in a fuel leak. A fuel leak could possibly result in a fire, which could cause injury to the rider or others and/or damage to property.

The cause of the defect is due to the shape and mounting position of the original fuel lines on the front fuel tank.

To remedy this defect it is necessary to have the two newly designed fuel lines with a new shape and an additional clamp installed. This work must be performed by an authorized Husqvarna Motorcycles dealer and will be done free of charge.

Please contact your authorized Husqvarna Motorcycles dealer (log onto www.husqvarna-motorcycles.com for a complete dealer listing) as soon as possible to arrange for installation of the newly designed fuel lines with an additional clamp. It is suggested that you call your local authorized Husqvarna Motorcycles dealer to make an appointment to have the recall repair performed. The repair procedure will take approximately 30 minutes. However, it may be necessary to leave your motorcycle with the dealer for a longer period of time depending on their work schedule. Please present a copy of this letter along with your motorcycle to your local authorized Husqvarna Motorcycles dealer. There will be no charge for this service.
