***** Campaign Summary *****

INFINITI is committed to safety, security, and satisfaction of our clients and their passengers. INFINITI has notified the National Highway Traffic Safety Administration that it is conducting a Voluntary Recall Campaign on certain INFINITI Model Year 2021 Q50, QX50, Q60 and 2020 QX60 vehicles to inspect the casting stamp of the front steering knuckles and/or rear axle housings. If any of the components are affected, the retailer will replace the affected parts.

Due to a manufacturing issue that has since been corrected, the steering knuckles and/or rear axle housings on certain affected vehicles might not meet specifications. In this condition, if the front steering knuckle or rear axle housing receives a strong impact (such as hitting a curb) the steering knuckle or rear axle housing may deform. As a result, the steering wheel may become off-center, impairing the client's ability to steer the vehicle or in the case of rear axle housing cause wheel mis-alignment. In the worst case condition, the damaged steering knuckle or rear axle housing may cause wheel separation from the vehicle; increasing the risk of a crash.

Affected vehicles are subject to stop sale and are either currently in retailer inventory or assigned and in transit to the retailer.

This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in retailer inventory. If a VIN subject to this recall campaign was part of a retailer trade, the letter associated with that VIN should be forwarded to the appropriate retailer for service completion.
