Re: UPDATE-Stop Sale/Safety Recall: 2022 Odyssey Second Row Outer Seats

PARTS AND SERVICE BULLETIN

Please be advised that as of today, June 17, 2021, parts are now available via VIN control ordering under service bulletin 21-056, *Safety Recall: 2022 Odyssey Second Row Outer Seats*. A revision to this bulletin has now been posted to the Service Information System (SIS) which includes parts, repair, and warranty information related to this recall.

REPAIR

Replace the right and left second row outer seat frames.

TOOLS

There are no special tools needed for this recall.

BACKGROUND

On May 29, 2021, American Honda announced a STOP SALE and safety recall for a very small number of 2022 Odyssey vehicles. The second row outer seat(s) rail may have been damaged during assembly causing the seat(s) to remain unlatched. Unlatched seat(s) can move unexpectedly under certain braking conditions which can increase the risk of injury.

On June 5, 2021, American Honda expanded this recall to include approximately 143 additional units. Refer to your eResponsibility report or do an iN VIN status inquiry to determine which units in your inventory are **affected**.

Failure to repair a vehicle as necessary prior to sale may subject your dealership to claims or lawsuits.

As always, be sure to do an iN VIN status inquiry for all vehicles passing through your dealership to determine eligibility for any open campaigns.
