Details [*selectable*]
- Install time: 15 mins
The vehicle will need to remain parked and turned off during the update
 - Remind Me Later [*selectable*]
 - Install Update [*selectable*]

Update Detail Screen Text:

- Important Update for GM Recall No. N21-2333900
- This important update corrects a software issue that can cause loss of power steering assist at start up or while driving. Normal steering control is still available, but increased steering effort would be required, particularly at moderate or lower speeds. This update will correct that condition, which is subject to GM Recall No. N21-2333900. You will receive a letter providing additional details regarding this issue. During the update process, your radio may stay on up to 5 minutes after you exit the vehicle. This is expected behavior when an update package is onboard the vehicle. Do not service your vehicle during installation.
- Install time: 15 mins
The vehicle will need to remain parked and turned off during the update
 - Remind Me Later [*selectable*]
 - Install Update [*selectable*]

Decline Update Screen Text:

- If you decline this update, you will no longer be able to install it. If you would like to install this update later, you will need to contact your dealer for assistance.
 - Cancel [*selectable*]
 - Decline Update [*selectable*]

Install Screen #2 Text:

- Update may take up to 60 minutes. Park in a secure location. Your vehicle will be disabled, cannot be driven, and features like door locks, windows, and chimes may not work. If you leave the vehicle, do not lock occupants inside.
 - Cancel [*selectable*]
 - Install Now [*selectable*]

Vehicle State Screen Text:
