Details of the Recall

Your vehicle may have been built with non-conforming clear coat paint which may lead to inadequate front windshield adhesion to the vehicle body. A windshield that is not adequately retained to the vehicle in a crash may increase the risk of injury to the occupants.

FCA US will repair your vehicle free of charge (parts and labor). To do this, your dealer will remove and replace the front windshield urethane sealant. The estimated repair time is 4 hours. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge or RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
