

IMPORTANT SAFETY RECALL

September 2021

This notice applies to your vehicle, **VIN:** _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2019 model year Chevrolet Bolt EV vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall N212343880.
- This letter contains important interim safety precautions that should be followed until the final recall remedy is performed on your vehicle.

Why is your vehicle being recalled?

The high voltage batteries in some vehicles may pose a risk of fire when charged to full, or very close to full, capacity. Experts from GM and LG have identified the simultaneous presence of two manufacturing defects in the same battery cell as the root cause of these battery fires.

What will we do?

Parts to repair your vehicle are not currently available, but when parts are available, your GM dealer will replace the lithium ion battery modules in your vehicle with new lithium ion battery modules. This service will be performed for you at **no charge**.

We are working as quickly as possible to correct this condition. When parts are available, we will send you another letter asking you to take your vehicle to your GM dealer to have your vehicle serviced. You can also check the status of this recall at: <https://my.gm.com/recalls>.

What should you do?

While we prepare to conduct this recall, you should take the following interim steps:

1. Set your vehicle to a 90 percent state of charge limitation using Target Charge Level mode. Instructions on how to do this are available on www.chevy.com/boltevrecall. If you are unable to successfully make these changes, or do not feel comfortable making these changes, GM is asking you to visit your dealer to have these adjustments completed, **free of charge**.

2. Charge your vehicle more frequently and avoid depleting your battery below approximately 70 miles (113 KM) of remaining range, where possible.
3. **Park your vehicle outside immediately after charging and do not leave your vehicle charging indoors overnight.**

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the Chevrolet EV Concierge team at 833-EVCHEVY (833-382-4389). Hours of operation are Monday through Friday, 8:00 AM to 12:00 AM ET or Saturday and Sunday, 12:00 PM to 9:00 PM ET.

If after contacting your dealer and the Chevrolet EV Concierge team, you are still not satisfied we have done our best to remedy this condition without charge and within a reasonable time, you may wish to write the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1.888.327.4236 (TTY 1.800.424.9153), or go to <http://www.safercar.gov>. The National Highway Traffic Safety Administration Campaign ID Number for this recall is 21V560.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.
