### WHY IS YOUR VEHICLE BEING RECALLED?

Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 4 hours and 30 minutes.

Until this recall repair is performed, you should take the following interim steps:

- 1 Set your vehicle to a 90 percent state of charge limitation. Instructions on how to do this are available on [www.chevy.com/boltevre recall](https://www.chevy.com/boltevre recall). If you are unable to successfully make these changes, or do not feel comfortable making these changes, GM is asking you to visit your Chevrolet EV Certified Dealer to have these adjustments completed, **free of charge**.
- 2 Charge your vehicle more frequently and avoid depleting your battery below approximately 70 miles (113 KM) of remaining range, where possible.
- 3 Continue to park your vehicle outside immediately after charging, and do not leave your vehicle charging indoors overnight.
