REMINDER: SCHEDULE YOUR FREE ADVANCED DIAGNOSTIC SOFTWARE UPDATE NOW.

[SCHEDULE YOUR SOFTWARE UPDATE >](#)

Thanks again for your continued patience while the team at Chevrolet works as quickly as we can to provide you with replacement battery modules for your Bolt EV. Battery replacements have begun, and we continue to work with our battery supplier to obtain more battery modules to help speed up the replacement process.

We are pleased to inform you that we have developed an advanced diagnostic software package that will remove parking and charging limitations on your vehicle while we work on building replacement battery modules.

This software will automatically limit your vehicle's maximum charge to 80%, which will allow you to safely resume:

- Charging indoors overnight
- Depleting your vehicle's battery below 70 miles (113 km) of range, resulting in greater

overall vehicle range compared to GM's prior interim charging guidance; and

- Parking indoors after charging

This software also contains new diagnostics designed to detect specific abnormalities that might indicate a rare battery issue in your vehicle.

THIS SOFTWARE IS NOW AVAILABLE FOR YOUR VEHICLE

Schedule a service appointment at your preferred Chevrolet EV dealer to have the software installed. The service should take approximately 1-3 hours to complete. Until you have the software installed, we ask that you still follow our previous guidelines, which are outlined on our website: www.chevy.com/boltevreCALL.

This software is not the final recall remedy, and you will be notified when battery modules are available for replacement. If you have already had this software update completed after November 2021, please disregard this notice.

WILSONVILLE CHEVROLET

(503) 454-2000

Once again, we appreciate your patience and understanding. If you have any questions, please contact the Chevrolet EV Concierge at **1-833-EVCHEVY (1-833-382-4389)** or your preferred Chevrolet EV dealer.

Sincerely,

Steve Hill
Vice President, Chevrolet
