Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2019 G-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

The fuel tank on certain MY19 G-Class vehicles might not meet current production specifications. The fuel tank may not have been welded properly during manufacturing, which could result in a fuel leak. As a result, the risk of a fire in the presence of an ignition source could increase. When the issue occurs, you might be made aware of the issue by the smell of fuel and by a flashing check engine indicator light in the vehicle's instrument cluster.

As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures that might be applicable to your vehicle which may increase the required working time.
