

AMB6 - Checking Three-Point Belt and Replacing it if Necessary (Stop Delivery/Recall Campaign)

Model Line: **Taycan (Y1A)**

Model Year: **As of 2021 up to 2022**

Country/Market: USA (C02)
Canada (C36)

Concerns: **Child locking function on three-point belt**

Information: **There is a possibility that the child-seat lock on the three-point belts in the affected vehicles will not always function properly due to a defective locking lever.**

As a result, the legal requirements for the child-seat lock function of the three-point belts may not be met.

Action required: **Check the three-point belts affected and replace them if necessary.**

Information

Every vehicle affected by this campaign has been assigned **multiple scopes**.

- 1 scope for testing
- 1 - 8 other scopes for replacing the three-point belts, depending on the test result

Based on production data, it is clear at which position a potentially faulty three-point belt was installed in each vehicle. To determine which three-point belt(s) must be checked, use the PCSS Vehicle Information to determine the scope of the test required for the vehicle. Then check the three-point belt(s) affected.

For instructions see:

⇒ *Technical Information 'Checking three-point belt'*

Depending on the result of the test, the relevant scope must then be selected to carry out the remedial action and the related warranty processing.

Affected Vehicles: Only vehicles assigned to the campaign (see also PCSS Vehicle Information).

Parts required

If necessary remove the parts from the corresponding invoicing scope after checking the three-point belt(s).

For invoicing scopes, see

⇒ *Technical Information 'Warranty processing'*

Required tools

Information

The Taycan (Y1A) is equipped as standard with a **lithium starter battery**.

Lithium starter batteries must only be charged using a **suitable battery charger** that has a current and voltage-controlled charge map.

For further information about the battery chargers to be used, see ⇒ *Workshop Manual '270689 Charging battery/vehicle electrical system'*.

Information

No tools are required for checking the three-point belts.

Tools:

- Battery charger with a current rating of **at least 90 A, and also with a current and voltage-controlled charge map** for lithium starter batteries, e.g. **VAS 5908 battery charger 90 A**.
- **9900 - PIWIS Tester 3**
- Torque wrench, 2 – 10 Nm (1.5 – 7.5 ftlb.), e.g. **VAG 1783 Torque wrench, 2-10 Nm (1.5-7.5 ftlb.)**
- Torque wrench, 6 – 50 Nm (4.5 – 37 ftlb.), e.g. **VAG 1331A Torque wrench, 6-50 Nm (4.5-37 ftlb.)**
- Plastic wedge (commercially available)

Checking three-point belt

Work

Checking three-point belt

Procedure:

Depending on the test scope assigned to the vehicle, check the appropriate three-point belt/three-point belts.

Information

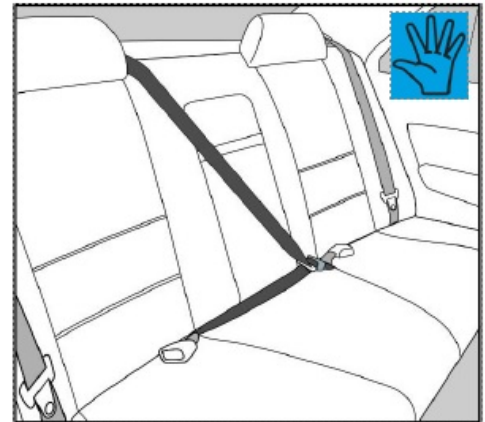

The test procedure is shown using the rear center seat as an example. The three-point belts for the rear right, rear left and front (passenger's side) seats must be checked in the same way.

- 1 Insert three-point belt with the seat-belt fastener into the seat-belt buckle and lock it ⇒ *Closing three-point belt.*

Information

To check the three-point belts for the rear right, rear left and front (passenger's side) seats, continue with Step 3.

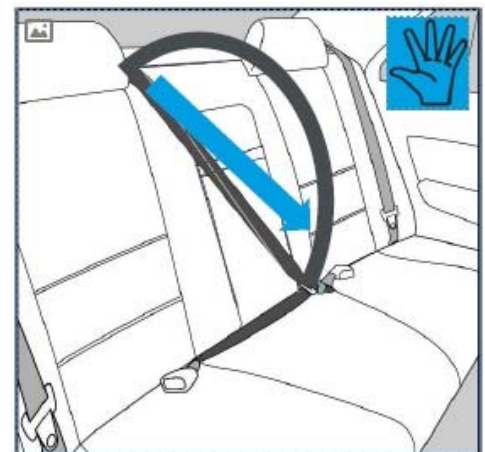

Closing three-point belt

- 2 Pull belt strap about 200 mm - 250 mm / 7.87 in — 9.84 in out of the belt installing and hold in place with your hand ⇒ *Holding belt strap -Left picture-.*

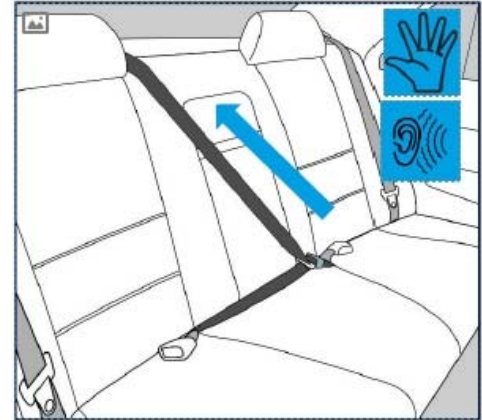

Holding belt strap

- 3 While holding the belt strap in place with your hand ⇒ *Holding belt strap -Right picture-* (only for rear center three-point belt), pull the belt strap out fully ⇒ *Pulling out belt strap* in order to activate the child locking function (ALR automatic locking retractor).

Pulling out belt strap

- 4 Allow the belt strap to retract slowly, checking whether an audible click can be heard while it retracts
 ⇒ *Retracting belt strap*.
 Keep holding the belt strap with your hand (only for rear center three-point belt).

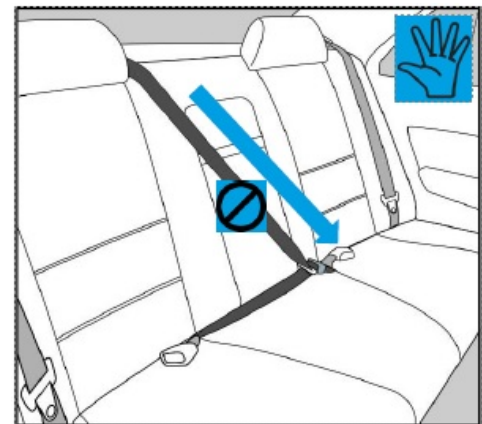

Retracting belt strap

- 5 As soon as the belt strap has retracted, check whether it can be pulled out again or is blocked
 ⇒ *Pulling out belt strap and checking belt locking system*.

When checking the three-point belt(s), if you discover that the **belt strap does not lock**, the three-point belt(s) affected must be replaced. To do this, continue with:

- ⇒ *Technical Information '270689 Replacing front (passenger's side) three-point belt' and/or*
- ⇒ *Technical Information '270689 Replacing rear left / right three-point belt' and/or*
- ⇒ *Technical Information '270689 Replacing rear centre three-point belt'*

Pulling out belt strap and checking belt locking system

If the belt strap blocks and an audible click can be heard when the three-point belt retracts:

- **Repeat steps 1 to 5 four times**

Information

The check must be performed five times on all affected three-point belts.

Information

If the child-lock function does not comply with specifications once during the five checks, the three-point belt in question must be replaced.

If five tests confirm that the child locking function of the three-point belt(s) works according to specifications, the three-point belt(s) do **not** have to be replaced.

If **all three-point belts to be checked work according to specifications**, the campaign can be completed as follows:

- Enter the campaign in the Warranty and Maintenance booklet
- End of remedial action

Replacing front three-point belt (passenger's side)

WARNING

Incorrect handling of seat-belt pretensioner unit

- Triggering of seat-belt pretensioner unit
- ⇒ Observe safety regulations for handling seat-belt pretensioner units. ⇒ *Workshop Manual '6X00IN Handling and replacing airbag and seat-belt pretensioner units'*
- ⇒ Observe disposal regulations for seat-belt pretensioner units. ⇒ *Workshop Manual '6X00IN Disposal of airbag and seat-belt pretensioner units'*
- ⇒ After disconnecting the battery, wait 1 minute before disconnecting the seat-belt pretensioner unit.
- ⇒ Set aside the remote control and disconnect the battery. Route or insulate the ground strap so that all contact with a ground carrier is avoided. ⇒ *Workshop Manual '978519 Removing and installing ground strap for battery'*
- ⇒ If removed for an extended period, the seat-belt pretensioner unit must be stored in a safe place.
- ⇒ Transport the seat-belt pretensioner unit in such a way that the belt strap can retract safely if it is actuated.

Information

Dispose of replaced and non-ignited airbag and seat-belt pretensioner units in accordance with local legal requirements and transport regulations.

Work
Procedure:

Preparatory work

- 1 Remove B-pillar trim panel (lower part).
⇒ *Workshop Manual '706719 Removing and installing B-pillar trim panel (lower part)'*
- 2 Remove the B-pillar trim panel (upper part).
⇒ *Workshop Manual '70671901 Removing and installing the B-pillar trim panel (upper part)'*
- 3 Remove rear seat.
⇒ *Workshop Manual '724819 Removing and installing rear seat'*
- 4 Remove (lower part of) C-pillar trim panel.
⇒ *Workshop Manual '706819 Removing and installing C-pillar trim panel (lower part)'*

- 5 Remove (rear) inner door sill trim.
⇒ *Workshop Manual '680519 Removing and installing (rear) inner door sill trim'*
- 6 Remove dashboard trim panel.
⇒ *Workshop Manual '701619 Removing and installing dashboard trim panel'*
- 7 Remove front side-section trim panel.
⇒ *Workshop Manual '702419 Removing and installing front side-section trim panel'*
- 8 Remove (front) inner door sill trim.
⇒ *Workshop Manual '68051901 Removing and installing (front) inner door sill trim'*

Work
Procedure:

Replacing three-point belt

- Replace front three-point belt (passenger's side).
For instructions see:
⇒ *Workshop Manual '691119 Removing and installing front three-point belt'*
and
⇒ *Workshop Manual '691155 Replacing front three-point belt'*

Work
Procedure:

Concluding work

- 1 Install (front) inner door sill trim.
⇒ *Workshop Manual '68051901 Removing and installing (front) inner door sill trim'*
- 2 Install front side-section trim panel.
⇒ *Workshop Manual '702419 Removing and installing front side-section trim panel'*
- 3 Install (rear) inner door sill trim.
⇒ *Workshop Manual '680519 Removing and installing (rear) inner door sill trim'*
- 4 Install dashboard trim panel.
⇒ *Workshop Manual '701619 Removing and installing dashboard trim panel'*

Information

Unless another three-point belt has to be replaced, continue with Step 5.
If one or more rear three-point belts also have to be replaced, continue directly with:

- ⇒ *Technical Information '701619 Replacing rear left / right three-point belt'*
- or**
- ⇒ *Technical Information '701619 Replacing rear centre three-point belt'*
- 5 Install (lower part of) C-pillar trim panel.
⇒ *Workshop Manual '706819 Removing and installing C-pillar trim panel (lower part)'*

- 6 Install rear seat.
⇒ *Workshop Manual '724819 Removing and installing rear seat'*
- 7 Install the B-pillar trim panel (upper part).
⇒ *Workshop Manual '70671901 Removing and installing the B-pillar trim panel (upper part)'*
- 8 Install B-pillar trim panel (lower part).
⇒ *Workshop Manual '706719 Removing and installing B-pillar trim panel (lower part)'*
- 9 Enter the campaign in the Warranty and Maintenance booklet.

Replacing rear left / right three-point belt

WARNING

Incorrect handling of seat-belt pretensioner unit

- **Triggering of seat-belt pretensioner unit**
- ⇒ Observe safety regulations for handling seat-belt pretensioner units. ⇒ *Workshop Manual '6X00IN Handling and replacing airbag and seat-belt pretensioner units'*
- ⇒ Observe disposal regulations for seat-belt pretensioner units. ⇒ *Workshop Manual '6X00IN Disposal of airbag and seat-belt pretensioner units'*
- ⇒ After disconnecting the battery, wait 1 minute before disconnecting the seat-belt pretensioner unit.
- ⇒ Set aside the remote control and disconnect the battery. Route or insulate the ground strap so that all contact with a ground carrier is avoided. ⇒ *Workshop Manual '978519 Removing and installing ground strap for battery'*
- ⇒ If removed for an extended period, the seat-belt pretensioner unit must be stored in a safe place.
- ⇒ Transport the seat-belt pretensioner unit in such a way that the belt strap can retract safely if it is actuated.

Information

Dispose of replaced and non-ignited airbag and seat-belt pretensioner units in accordance with local legal requirements and transport regulations.

Work
Procedure:

Preparatory work:

- 1 Remove rear seat.
⇒ *Workshop Manual '724819 Removing and installing rear seat'*
- 2 Remove (lower part of) C-pillar trim panel.
⇒ *Workshop Manual '706819 Removing and installing C-pillar trim panel (lower part)'*

Work Replacing rear left / right three-point belt

Procedure:

- Replace rear left / right three-point belt.
For instructions see:
⇒ *Workshop Manual '691219 Removing and installing rear three-point belt'*

Work Concluding work

Procedure:

**Information**

Unless another three-point belt has to be replaced, continue with Step 1.

If one or more rear three-point belts or the front three-point belt (passenger's side) also has to be replaced, continue directly with:

- ⇒ *Technical Information '691219 Replacing front three-point belt (passenger's side)'*

or

- ⇒ *Technical Information '691219 Replacing rear centre three-point belt'*

- 1 Install (lower part of) C-pillar trim panel.
⇒ *Workshop Manual '706819 Removing and installing C-pillar trim panel (lower part)'*
- 2 Install rear seat.
⇒ *Workshop Manual '724819 Removing and installing rear seat'*
- 3 Enter the campaign in the Warranty and Maintenance booklet.

Replacing rear center three-point belt**WARNING****Incorrect handling of seat-belt pretensioner unit**

- **Triggering of seat-belt pretensioner unit**
- ⇒ **Observe safety regulations for handling seat-belt pretensioner units.** ⇒ *Workshop Manual '6X00IN Handling and replacing airbag and seat-belt pretensioner units'*
- ⇒ **Observe disposal regulations for seat-belt pretensioner units.** ⇒ *Workshop Manual '6X00IN Disposal of airbag and seat-belt pretensioner units'*
- ⇒ **After disconnecting the battery, wait 1 minute before disconnecting the seat-belt pretensioner unit.**
- ⇒ **Set aside the remote control and disconnect the battery. Route or insulate the ground strap so that all contact with a ground carrier is avoided.** ⇒ *Workshop Manual '978519 Removing and installing ground strap for battery'*
- ⇒ **If removed for an extended period, the seat-belt pretensioner unit must be stored in a safe place.**
- ⇒ **Transport the seat-belt pretensioner unit in such a way that the belt strap can retract safely if it is actuated.**

Information

Dispose of replaced and non-ignited airbag and seat-belt pretensioner units in accordance with local legal requirements and transport regulations.

Work
Procedure:

Preparatory work:

- 1 Disconnect ground strap for 12-volt vehicle electrical system battery.
For instructions see:
⇒ *Workshop Manual '978519 Removing and installing ground strap for battery'*
- 2 Remove rear seat.
⇒ *Workshop Manual '724819 Removing and installing rear seat'*
- 3 Remove side cushion at the left and right.
⇒ *Workshop Manual '724919 Removing and installing side cushion'*
- 4 Remove rear backrest on 2/3-split folding rear seat.
⇒ *Workshop Manual '724719 Removing and installing rear backrest'*

Information

The rear backrest mount ⇒ *Workshop Manual '726719 Removing and installing rear backrest mount'* does **not** have to be removed.

- 5 Remove rear-backrest lock.
⇒ *Workshop Manual '726819 Removing and installing rear-backrest lock'*
- 6 Loosen padding for rear backrest to the extent necessary to allow the three-point belt to be removed. This does not require removal of the headrest.
For instructions see:
⇒ *Workshop Manual '745219 Removing and installing padding for rear backrest'*

Work
Procedure:

Replacing rear center three-point belt

- Replace rear center three-point belt.
For instructions see:
⇒ *Workshop Manual '691219 Removing and installing rear three-point belt'*

Work
Procedure:

Concluding work

- 1 Install padding for rear backrest.
⇒ *Workshop Manual '745219 Removing and installing padding for rear backrest'*
- 2 Install rear-backrest lock.
⇒ *Workshop Manual '726819 Removing and installing rear-backrest lock'*

- 3 Install rear backrest on 2/3-split folding rear seat.
⇒ *Workshop Manual '724719 Removing and installing rear backrest'*
- 4 Install side cushion at the left and right.
⇒ *Workshop Manual '724919 Removing and installing side cushion'*

Information

Unless another three-point belt has to be replaced, continue with Step 5.
If one or more rear three-point belts or the front three-point belt (passenger's side) also has to be replaced, continue directly with:

- ⇒ *Technical Information '724919 Replacing front three-point belt (passenger's side)'*

or

- ⇒ *Technical Information '724919 Replacing rear left / right three-point belt'*

- 5 Install rear seat.
⇒ *Workshop Manual '724819 Removing and installing rear seat'*
- 6 Connect ground strap for 12-volt vehicle electrical system battery.
For instructions see:
⇒ *Workshop Manual '978519 Removing and installing ground strap for battery'*
- 7 Follow work instructions after disconnecting the 12-volt vehicle electrical system battery.
⇒ *Workshop Manual '2X00IN Work instructions after disconnecting the 12-volt battery'*
- 8 Enter the campaign in the Warranty and Maintenance booklet.

Warranty processing

Scope 1: Not relevant for this vehicle type.

Scope 2: **Checking three-point belt in front (passenger side), rear left, rear right and rear center**

Checking three-point belts
Includes: Checking 4 three-point belts

Labor time: **35 TU**

⇒ **Damage Code AMB6 99 000 1**

Scope 3: **Checking three-point belt, front (passenger side)**

Checking three-point belt Includes: Checking 1 three-point belt ⇒ Damage Code AMB6 99 000 1	Labor time: 29 TU
--	--------------------------

Scope 4: **Check rear left three-point belt**

Checking three-point belt Includes: Checking 1 three-point belt ⇒ Damage Code AMB6 99 000 1	Labor time: 29 TU
--	--------------------------

Scope 5: **Checking rear right three-point belt**

Checking three-point belt Includes: Checking 1 three-point belt ⇒ Damage Code AMB6 99 000 1	Labor time: 29 TU
--	--------------------------

Scope 6: **Checking three-point belt on rear left and rear center**

Checking three-point belts Includes: Checking 2 three-point belts ⇒ Damage Code AMB6 99 000 1	Labor time: 31 TU
--	--------------------------

Scope 7: **Checking three-point belt on rear left and rear right**

Checking three-point belts Includes: Checking 2 three-point belts ⇒ Damage Code AMB6 99 000 1	Labor time: 31 TU
--	--------------------------

Scope 8: **Checking three-point belt in front (passenger's side) and rear left**

Checking three-point belts Includes: Checking 2 three-point belts	Labor time: 31 TU
⇒ Damage Code AMB6 99 000 1	

Scope 9: **Checking three-point belt in front (passenger's side) and rear right**

Checking three-point belts Includes: Checking 2 three-point belts	Labor time: 31 TU
⇒ Damage Code AMB6 99 000 1	

Scope 10: **Checking three-point belt at rear left, rear right and rear center**

Checking three-point belts Includes: Checking 3 three-point belts	Labor time: 33 TU
⇒ Damage Code AMB6 99 000 1	

Scope 11: **Checking three-point belt in front (passenger side), rear left and rear right**

Checking three-point belts Includes: Checking 3 three-point belts	Labor time: 33 TU
⇒ Damage Code AMB6 99 000 1	

Scope 12: **Checking three-point belt in front (passenger side), rear left and rear center**

Checking three-point belts Includes: Checking 3 three-point belts	Labor time: 33 TU
⇒ Damage Code AMB6 99 000 1	

Scope 13: **Checking and replacing rear left three-point belt**

Checking and replacing rear left three-point belt		Labor time: 67 TU
Includes: Checking three-point belt Replacing rear left three-point belt		
Select the relevant version (color) of the three-point belt and specify it in the warranty claim.		
Required part numbers:	Designation	Qty.
	- Use	
9J1857805J A23	⇒ Three-point seat belt, black - rear left	1 ea.
or		
9J1857805J OG6	⇒ Three-point seat belt in bordeaux red - rear left	1 ea.
or		
9J1857805J OH5	⇒ Three-point seat belt, chalk beige - rear left	1 ea.
or		
9J1857805J OI9	⇒ Three-point seat belt, atacama beige - rear left	1 ea.
or		
9J1857805J OL8	⇒ Three-point seat belt, chalk - rear left	1 ea.
or		
9J1857805J OS1	⇒ Three-point seat belt, truffle brown - rear left	1 ea.
or		
9J1857805J OU6	⇒ Three-point seat belt, slate grey - rear left	1 ea.
or		
9J1857805J OW4	⇒ Three-point seat belt, blackberry rear left	1 ea.
Additional parts required for replacing the three-point belt		
N 98926102	⇒ Cylinder screw, 7/16" - 20 x 32 - belt installing - belt reel	2 ea.
⇒ Damage Code AMB6 99 000, Repair Code 2		

Scope 14: **Checking and replacing rear center three-point belt**

Checking and replacing rear center three-point belt

Labor time: **118 TU**Includes: Checking three-point belt
Replacing rear center three-point belt

Required part numbers:	Designation	Qty.
9J1857807E A23	⇒ Three-point seat belt, black – rear center	1 ea.
N 98926102	⇒ Cylinder screw, 7/16" - 20 x 32 – belt installing – belt reel	2 ea.

Scope 20:

Checking and replacing three-point belt in front (passenger's side) and rear left

Checking and replacing three-point belt in front (passenger's side) and rear left	Labor time: 169 TU
Includes:	Checking three-point belt Replacing three-point belt in front (passenger's side) and rear left Teaching seat-belt pretensioner
Select the relevant version (color) of the three-point belt and specify it in the warranty claim.	
Required part numbers:	Designation
9J1857706J A23	⇒ Three-point seat belt, black – front (passenger's side) – M-no. 4QQ
Qty.	1 ea.
or	

9J1857706J OG6	⇒ Three-point seat belt, bordeaux red – front (passenger's side) – M-no. 4QQ	1 ea.
or		
9J1857706J OH5	⇒ Three-point seat belt, chalk beige – front (passenger's side) – M-no. 4QQ	1 ea.
or		
9J1857706J OL8	⇒ Three-point seat belt, chalk – front (passenger's side) – M-no. 4QQ	1 ea.
or		
9J1857706J O03	⇒ Three-point seat belt, meranti brown – front (passenger's side) – M-no. 4QQ	1 ea.
or		
9J1857706J OS1	⇒ Three-point seat belt, truffle brown – front (passenger's side) – M-no. 4QQ	1 ea.
or		
9J1857706J OU6	⇒ Three-point seat belt, slate gray – front (passenger's side) – M-no. 4QQ	1 ea.
or		
9J1857706J OW4	⇒ Three-point seat belt, blackberry – front (passenger's side) – M-no. 4QQ	1 ea.
or with M-no. 4QR		
9J1857706G A23	⇒ Three-point seat belt, black – front (passenger's side) – M-no. 4QR	1 ea.
or		
9J1857706G OG6	⇒ Three-point seat belt, bordeaux red – front (passenger's side) – M-no. 4QR	1 ea.
and		
9J1857805J A23	⇒ Three-point seat belt, black – rear left	1 ea.

or			
9J1857805J OG6	⇒ Three-point seat belt in bordeaux red – rear left		1 ea.
or			
9J1857805J OH5	⇒ Three-point seat belt, chalk beige – rear left		1 ea.
or			
9J1857805J OI9	⇒ Three-point seat belt, atacama beige – rear left		1 ea.
or			
9J1857805J OL8	⇒ Three-point seat belt, chalk – rear left		1 ea.
or			
9J1857805J OS1	⇒ Three-point seat belt, truffle brown – rear left		1 ea.
or			
9J1857805J OU6	⇒ Three-point seat belt, slate grey – rear left		1 ea.
or			
9J1857805J OW4	⇒ – Three-point seat belt, blackberry – rear left		1 ea.
Additional parts required for replacing the three-point belt			
N 98926102	⇒ Cylinder screw, 7/16" - 20 x 32 – belt installing (rear) – belt reel (front / rear)		4 ea.
N 90910102	⇒ Lens-type screw, M5 x 18 – T-hook		1 ea.
N 91074201	⇒ Internal hexagon round-head bolt, M5 x 16 – belt deflector		1 ea.
PAF912806	⇒ Internal serration screw – belt installing		1 ea.

⇒ Damage Code AMB6 99 000, Repair Code 2

Scope 21: **Checking and replacing three-point belt in front (passenger's side) and rear right**

Checking and replacing three-point belt in front (passenger's side) and rear right		Labor time: 158 TU
Includes: Checking three-point belt Replacing three-point belt in front (passenger's side) and rear right Teaching seat-belt pretensioner		
Select the relevant version (color) of the three-point belt and specify it in the warranty claim.		
Required part numbers:	Designation	Qty.
9J1857706J A23	⇒ Three-point seat belt, black – front (passenger's side) – M-no. 4QQ	1 ea.
or

N 98926102	⇒ Cylinder screw, 7/16" - 20 x 32 – belt installing (rear) – belt reel (front / rear)	7 ea.
N 90910102	⇒ Lens-type screw, M5 x 18 – T-hook	1 ea.
N 91074201	⇒ Internal hexagon round-head bolt, M5 x 16 – belt deflector	1 ea.
PAF912806	⇒ Internal serration screw – belt installing	1 ea.
⇒ Damage Code AMB6 99 000, Repair Code 2		

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
