IMPORTANT SAFETY RECALL

(NHTSA Recall Number: 21V622)

This notice applies to your vehicle: (Insert VIN)

FOLLOW-UP NOTICE

February 10, 2022

THE REMEDY PART FOR YOUR VEHICLE IS NOW AVAILABLE

Dear Kia Forte Owner:

Kia has identified a defect in your vehicle which relates to a noncompliance with a Federal Motor Vehicle Safety Standard (FMVSS).

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Kia America, Inc. has decided certain 2016-2018 MY Kia 4-door & 2-door Forte vehicles fail to comply with Federal Motor Vehicle Safety Standard (FMVSS) 401, "Interior Trunk Release". The defect can result in the trunk's interior emergency release to be inoperative. The inability to get out of the trunk increases the risk of injury. Our records indicate that you own or lease one of the potentially affected vehicles. This is a follow-up to the notice sent to you in October 2021. **The remedy part is now available to be installed in your vehicle.**

What Is the Problem?

In high-temperature conditions, a thermal crack can develop in the pawl of the trunk latch which can intermittently cause the trunk's interior emergency release to be inoperative. If a person is inside the trunk compartment at the same time the latch pawl cracks, the person may not be able to get out of the trunk. The inability to get out of the trunk increases the risk of injury.

Kia Will Replace the Trunk Latch Assembly At No Cost for Parts Or Labor To You.

Kia will replace the trunk latch assembly with a new one. This work will be performed at Kia's expense at no cost to you. The actual time required to perform this repair will be approximately 1 hour. However, your vehicle may be needed longer. Please contact your authorized Kia dealer for an estimate of how long they may need your vehicle for this repair.

What Should You Do In the Interim?

- **No one should be allowed to occupy the trunk at any time. The trunk is a very dangerous location in the event of a crash.**
