QR Code

Get access to recall notifications, locate your nearest dealer, and more through this website or Mopar Owner's Companion App. You will be asked to provide your Vehicle Identification Number (VIN) to protect and verify your identity. The last eight characters of your VIN are provided above.

DEALERSHIP INSTRUCTIONS

Please reference Safety Recall Y58.

IMPORTANT SAFETY RECALL

Instrument Panel Cluster

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US has decided that certain [2021 (LA) Dodge Challenger] vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 571.101 Controls and Displays S5.3 requires vehicles to "illuminate telltales and their identification sufficiently to make them visible to the driver under daylight and nighttime driving conditions."

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The Instrument Panel Cluster (IPC) on your vehicle ^[1] has an incorrect software version. The affected vehicles do not illuminate their safety system status indicators sufficiently in both daylight and nighttime driving conditions. Suspect vehicles included in this recall may not illuminate the required safety system status indicators. Without visible safety system indicators, a driver may not receive information regarding vehicle safety, increasing the risk of injury or a crash.

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US will reprogram the suspect instrument cluster in your vehicle ^[2] with the correct software version free of charge (parts and labor). The estimated repair time is 1.5 hours. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.

**TO SCHEDULE YOUR FREE REPAIR,
CALL YOUR CHRYSLER, DODGE, JEEP OR RAM DEALER TODAY**

CALIFORNIA RESIDENTS

The State of California requires the completion of emission recall repairs prior to vehicle registration renewal. Your dealer will provide you with a Vehicle Emission Recall Proof of Correction Form after the Emission Recall service is performed. Be sure to save this form since the California Department of Motor Vehicles may require that you supply it as proof that the Emission Recall has been performed.

In order to ensure your full protection under the emissions warranty provisions, it is recommended that you have your (vehicle or engine) serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your (vehicle or engine).

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online. ^[3] Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
