

**URGENT**  
**IMPORTANT SAFETY RECALL**  
This notice applies to the VIN below

**Subaru Safety Recall WRI-21**  
**NHTSA Recall ID 21V-675**  
**November 2021**  
**Third Notice – Certified Mail**

Dear Subaru Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

SUBARU OF AMERICA, INC. has decided that a defect, which relates to motor vehicle safety, exists in certain 2021 model year Impreza vehicles.

You received this notice because our records indicate that you currently own one of these vehicles.

**DESCRIPTION OF THE DEFECT AND SAFETY RISK**

Your vehicle may be equipped with a left front lower control arm with an improper weld near a connection joint between the lower control arm and the crossmember. An improper weld in this location may lead to a partial separation of the lower control arm from the crossmember. If this partial separation occurs, the tire could contact the wheel well structure.

If the lower control arm partially separates from the crossmember while driving, the tire could contact the wheel well structure, resulting in a loss of vehicle control and in increased risk of a crash.

***Your vehicle is not safe to drive if this potential defect is present.***

**WHAT SUBARU WILL DO**

Subaru will inspect the lot number on the left front lower control arm in your vehicle and replace it if necessary, at no cost to you.

**WHAT YOU SHOULD DO**

You should contact any authorized Subaru retailer (dealer) for an appointment to have your vehicle inspected, at no cost to you.

***Please do not drive your car until it has been inspected and, if necessary, the recall repair has been performed by an authorized Subaru retailer.***

For your convenience, your retailer may provide a mobile inspection of your vehicle, and provide you with a loaner or rental vehicle at no cost if your vehicle requires repair.

If you prefer to make alternative arrangements for having your vehicle towed to your retailer, you may contact the Subaru Roadside Assistance Program at 1-800-261-2155.

**HOW LONG WILL THE REPAIR TAKE?**

The time required to inspect the lot number on the left front lower control arm in your vehicle is less than 15 minutes. If the left front lower control arm needs to be replaced, the time required is approximately one hour and 45 minutes. Your retailer can provide you with a better estimate of the overall time for this service visit, as it may be necessary to make your vehicle available for a longer period of time for scheduling purposes.

**OWNER INFORMATION**

Government regulations require that recall notifications be sent to the last known owner of record. That information is based primarily on state registration and title data. If you are a lessor of this vehicle, federal regulations require you to forward this notice to your lessee within ten days.

If you have moved or sold your vehicle, please update this information online at [www.subaru.com](http://www.subaru.com), select 'Customer Support,' then select 'Address Update' or 'Ownership Update' from the "Quick Links" menu.

**IF YOU HAVE PREVIOUSLY PAID FOR A REPAIR**

If you have already paid for repairs associated with this condition, you may be eligible for reimbursement. Reimbursement consideration will be based on the amount an authorized Subaru retailer in your area would charge for the same repair.

Please send the original service repair order, which has the name of the repair facility, date of repair, mileage at the time of repair, complete 17-digit vehicle identification number (VIN), and your name, with correct mailing address and telephone number to the address listed below:

**Subaru of America, Inc.  
Customer Advocacy Department, Attention: WRI-21 Recall  
P.O. Box 9103, Camden, NJ 08101-9877**

Please send original receipts only and retain a photocopy for your records. Please be assured that we will attempt to process your reimbursement request as quickly as possible, but it may take up to 60 days for this process to be completed.
