## **New Safety Recall Advanced Communication – Y61**

FCA US LLC (FCA US) has announced a safety recall on certain 2021 Model Year (VF) Ram ProMaster and (VM) Ram ProMaster City vehicles.

### **REASON FOR THIS SAFETY RECALL**

Some of the above vehicles may contain seatbelt retractors with suspect Automatic Locking Retractor ("ALR") levers that may affect the ALR function of the seatbelt retractor. The ALR may deactivate earlier than intended and a child seat may not tightly secure to the vehicle seat.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 208 S7.1.1.5 requires that, "Each designated seating position, shall have a seat belt assembly whose lap belt portion is lockable so that the seat belt assembly can be used to tightly secure a child restraint system.

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to inspect and replace seatbelt retractors as needed. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2021.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
