IMPORTANT SAFETY RECALL **See enclosed VIN list**

Subject: TBB Minotour CNG Solenoid

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC (DTNA), on behalf of its wholly owned subsidiary, Thomas Built Buses (TBB) has decided that a defect, which relates to motor vehicle safety exists on specific Model Year 2015-2018 TBB Minotour school buses built on a General Motors (GM) chassis and manufactured December 14, 2013, through June 29, 2017, and equipped with an IMPCO Automotive Compressed Natural Gas (CNG) conversion.

On certain vehicles, the underbody shutoff solenoid connector to a CNG fuel tank may corrode and could form a high-resistance short in the connector, potentially causing overheating or, in rare circumstances, a self-extinguishing flame. If there is a fuel leak or other combustible material in the vicinity, there is a risk of fire.

The CNG fuel shutoff solenoid will be replaced. Repairs will be performed by Daimler Trucks North America authorized service facilities.
