“Right first time in Time”

Reference Bulletins: QB 10125

Volvo Car USA LLC on behalf of Volvo Car Corporation, has decided to launch Recall R10125 on certain S60 Series MY 2001-2009 and S80 Series MY 2001-2006 vehicles.

Volvo has identified if the airbag inflator propellant tablets are subjected to elevated moisture levels and frequent high inflator temperatures, the tablets can start to decay and form dust particles. This localization of moisture leads to volumetric changes of the tablets surface creating dust over time. Dust increases burn surface area and thereby burn rate. Higher burn rate can result in higher combustion chamber pressure and risk of inflator rupture. This condition could render the driver to be struck by fragments of metal from the inflator.

The corrective action is to replace the Driver Airbag.

A total of 259,383 U.S. vehicles are eligible for this recall.

S80 Model Year 2001 Parts are NOT available at this time.

PARTS RETURN PROCESS INSTRUCTIONS AVAILABLE.

It is imperative that NO AIRBAGS ARE DETONATED/DEPLOYED once removed from the vehicle. VIDA may instruct the technicians to do so but detonating the airbag should not be done. Defective parts will be required to be sent back to Volvo for disposal.

Parts Bulletin 88-R10125

NOTE: Please refer to the separate document with specific RETURN PROCESS INSTRUCTIONS. Refer to SMB 88-010 and Parts Bulletin 88-010.

NOTE: S60's have always been factory equipped with charcoal-gray airbags and will be replaced with same color charcoal-gray. S80 replacement airbags will only be supplied in charcoal-gray.

Parts for the **S80 MY01** will not be available until a later date.
