

**OWNER NOTIFICATION**  
**NOTIFICACIÓN PROPIETARIO**

**NHTSA RECALL 21V-839**

Dear Rogue Hybrid Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2017-2019 Nissan Rogue Hybrid vehicles. Our records indicate that you own or lease the Nissan vehicle subject to this recall as identified by the VIN on the inside of this notice.

**Reason for Recall**  
**Motivo del Retiro**

On certain Rogue Hybrid vehicles, the engine harness may contact the Electronic Control Module (ECM) bracket. Due to the interference from the wire routing, the engine harness may become damaged. Over time, damage to the harness may cause a short circuit, which can lead to a blown fuse. If this occurs, it may disable drive power to the engine and electric motor, without the ability to restart. With the potential for loss of drivetrain power, the driver may experience an engine stall while driving, increasing the risk of a crash.

**What Nissan Will Do**  
**Qué Hará Nissan**

Your Nissan dealer will install a harness protector cover on the engine harness to prevent damage. The remedy could take up to one (1) hour. The dealer may require the vehicle for a longer period of time based upon the dealer's work schedule.

**What You Should Do**  
**Qué Debes Hacer**

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment.

Comunícate con cualquier concesionario Nissan a la mayor brevedad para concertar una cita de reparación para tu vehículo. Se requiere que traigas esta notificación el día de tu cita.
