**Date:** November 23, 2021

**Issue:** The affected vehicles are equipped with a passenger occupant detection system (also known as Body Sense) in the front passenger seat. On these vehicles, the system is integrated in the seat heating and controls the activation of the front passenger airbag. The seat heating is connected to the Body Sense control unit under the front passenger seat via a wire. If the wire has a contact fault, it may cause the passenger occupant detection system (PODS) to detect a malfunction and switch off the passenger airbag even though the seat may be occupied. As designed, a warning light in the instrument panel comes on together with an acoustic warning sound and an error message is displayed in the instrument cluster. The airbag indicator light shows "passenger airbag off".

In the event of a crash, there would be an increased risk of injury to the occupant seated in the front passenger seat if the passenger airbag is switched off/not working.

**Precautions** Should a malfunction occur, vehicle occupants will be alerted of a PODS system problem by illumination of the airbag warning light, an acoustic warning sound, an error message displayed in the instrument cluster and by the status of the Passenger Airbag OFF indicator light. If this happens, customers are advised to contact an authorized Audi dealer without delay to have the vehicle inspected/repaired.

**Notes:**

**IMPORTANT REMINDER: VEHICLES AFFECTED BY SAFETY & COMPLIANCE RECALLS**

**New Vehicles in Dealer Inventory:** It is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied. By law, dealers must correct, prior to delivery for sale or lease, any vehicle that fails to comply with an applicable Federal Motor Vehicle Safety Standard or that contains a defect relating to motor vehicle safety.

**Pre-Owned Vehicles in Dealer Inventory:** Dealers should not deliver any pre-owned vehicles in their inventory which are involved in a safety or compliance recall until the defect has been remedied.
