2021 RAM 1500 BIGHORN/LONESTAR CREW 4X4

Recall information: Y80/NHTSA 21V-918

Visit recalls.mopar.com for more information or call the FCA US Recall Team at [1-800-853-1403](tel:1-800-853-1403).

Details of the Recall

Your vehicle may be equipped with a Trailer Reverse Steering Control Module (TRSCM) that prevents the rearview image from displaying under certain conditions. An Electronic Throttle Control warning indicator may also be illuminated in the instrument panel cluster. The vehicle operator will notice that the rearview image is not displayed if attempting to reference the image while backing. If this warning is not heeded, backing without verifying it is safe to do so could lead to an increased risk of a crash or injury to people outside the vehicle. The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 571.111 S6.2.6 which requires that "The rear visibility system default to the rearview image being visible, and meet the requirements of FMVSS 571.111 S6.2.1 (field of view) and S6.2.2 (image size) at the beginning of each backing event, regardless of any modifications to the field of view that the driver had previously selected."

FCA will repair your vehicle free of charge (parts and labor). To do this, your dealer will update the TRSCM software. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge or RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
