

## **New Safety Recall Advanced Communication – Y72**

FCA US LLC (FCA US) has announced a safety recall on certain 2021 Model Year (WL) Jeep® Grand Cherokee L vehicles.

### **REASON FOR THIS SAFETY RECALL**

Suspect vehicles may have one or both headlamps inoperable. Inoperable headlamps may result in reduced visibility for the driver, which can cause vehicle crash without prior warning.

Federal Motor Vehicle Safety Standard ("FMVSS") 571.108, Lamps, reflective devices, and associated equipment, Section 6, Table 1A requires lower beam headlamps that "are energized when the beam selector switch is in the lower beam position."

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall on all affected vehicles to reprogram the Smart Lighting Module (SLM). The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4th Quarter of 2021.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
