Purpose for Service Bulletin

This bulletin informs dealers that Harley-Davidson has discovered that when Parts and Accessories (P&A) Detachable Tour-Pak Luggage Carrier Conversion Kits (Part No's. 53000916 and 53000917) are installed on 2014-2022 Touring and CVO Touring motorcycles, that these conversion kits may fail to conform to the Federal Motor Vehicle Safety Standard (No. 108; Lamps, Reflective Devices and Associated Equipment).

Specifically, if the Tour-Pak is removed and the vehicle is operated while one of these kits is installed, the green turn signal indicator will Fast Flash regardless of the functionality of the turn signal lights. As a consequence, if a turn signal light does subsequently malfunction, there is no change in flashing rate of the indicator within the instrument cluster as required by FMVSS 108 S9.3.6.

Motorcycles Affected

2014-2022 Touring and CVO Touring vehicles

Markets Affected

United States, Canada, and Mexico.

Part Numbers

Recall Kits (Part No. 91500111) are now available to order.
