SAFETY ADVISORY 22-419

Safety Recall:

US: 22V-015

CAN: 2022-014

Keystone,

Dear :

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2022 Alpine, Avalanche Fifth Wheels. As a result, Keystone RV is conducting a safety recall.

#### Reason for This Recall

It has been decided the vehicles in this recall population may have been manufactured with the exterior collapsible ladder not properly secured to the rear wall of the vehicle. If the ladder is not fastened securely to the rear wall, it may pull loose from the vehicle while an individual is utilizing the ladder, leading to an increased risk of personal injury. The vehicles included in the recall are:

2022 Alpine

Serial Number Range: NE780466 - NE780675

2022 Avalanche

Serial Number Range: NE760480 - NE760678

#### VINs in Your Inventory

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs in campaign # 22-419.

#### Advisory Instructions

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Please click here for a copy of Safety Advisory 22-419 which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY
