SAFETY (NONCOMPLIANCE) RECALL 22TA01 (Interim Notice 22TB01)

Certain 2021 Model Year Venza HV Rear Turn Signal Lamps May Become Dim or Deactivated

Model / Years	Production Period	Approximate Total Vehicles	Stop Sale Dealer Inventory
2021 Venza HV	Mid-September 2020 – Late May 2021	41,500	1

STOP! DO NOT SELL NEW VEHICLES IN DEALER INVENTORY.

Refer to Dealer Inventory Procedures section for more details.

On January 26th, 2022, Toyota filed a Noncompliance Information Report (NCIR) with the National Highway Traffic Safety Administration (NHTSA) informing the agency of our intent to conduct a voluntary Safety (Noncompliance) Recall on certain 2021 model year Venza Hybrid vehicles.

Condition

The rear turn signal lamp bulbs in the involved vehicles can temporarily become dim or deactivate after exposure to conditions such as heavy rain or car washing that causes condensation to form in the rear turn signal lamp. This condition may not meet certain federal safety requirements and may cause drivers in following vehicles to not know that the turn signal or the hazard lights have been activated, leading to an increased risk of a crash.

Remedy

Toyota is currently preparing the remedy for this issue. When the remedy is available, Toyota dealers will replace both rear turn signal LED bulbs with improved ones **FREE OF CHARGE**, and if necessary, replace the rear turn signal lamp assemblies to fit with the improved bulbs **FREE OF CHARGE**. At this time, Toyota estimates the remedy can be available in the second quarter of 2022.

Covered Vehicles

There are approximately 41,500 vehicles covered by this Safety (Noncompliance) Recall. Approximately 150 vehicles involved in this Safety (Noncompliance) Recall were distributed to Puerto Rico.

Owner Letter Mailing Date

Toyota will notify owners by late March 2022.

Toyota makes significant effort to obtain current customer name and address information from each state through industry resources when mailing owner letters. In the event your dealership receives a notice for a vehicle that was sold prior to the Safety (Noncompliance) Recall announcement, it is the dealership's responsibility to forward the owner letter to the customer who purchased the vehicle.

Please note that only owners of the covered vehicles will be notified. If you are contacted by an owner who has not yet received a notification, please **verify eligibility by confirming through TIS prior to performing repairs**. Dealers should perform the repair as outlined in the Technical Instructions found on TIS.

Dealer Inventory Procedures

New Vehicles in Dealership Inventory

There is 1 vehicle in new dealer inventory as of January 25, 2022.

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Toyota reimburses dealers for flooring costs associated with new vehicles held in dealership inventory until the recall remedy becomes available. Toyota provides these flooring reimbursements at 60-day intervals. Toyota reserves the right to withhold or charge-back any flooring reimbursement funds that may have been paid to the dealer if it determines that a new vehicle subject to a safety recall was sold without first being remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE:

- *New vehicles in dealer inventory subject to a Safety Recall must be remedied before delivery into commerce under a sale or lease. Dealer-to-dealer trades as well as vehicle sales between dealers should not be made until a vehicle is remedied.*
- Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (**Non SET and GST dealers:** <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Inspection Reminder Mirror Hang Tags for Covered Vehicles in New Dealer Stock

To easily recognize vehicles involved in this Safety (Noncompliance) Recall, each dealership should utilize Inspection Reminder Hang Tags. Inside the vehicle's glove box are stickers containing the VIN. Apply one of these stickers to the hang tag and install the hang tag in the vehicle. A sample copy of the Inspection Reminder Hang Tag has been included for your reference.

NOTE: Dealerships can order hang tags from the Material Distribution Center (MDC).

Part Number	Description	Quantity
00411-140003	Inspection Mirror Hang Tag	25 Per Pack

Pre-Owned Vehicles in Dealer Inventory

Toyota typically requests that dealers **NOT** deliver any pre-owned vehicles in dealer inventory that are covered by a Safety (Noncompliance) Recall unless the defect has been remedied. In this case, until remedy parts are available, delivery of a pre-owned vehicle is acceptable if disclosed to the customer that the vehicle is involved in this Safety (Noncompliance) Recall and that the remedy is currently being prepared by Toyota.

Toyota expects dealers to use the attached Customer Contact and Vehicle Disclosure Form to obtain vehicle buyer information. Dealers are expected to provide a copy of the completed form, along with the most current FAQ, to the vehicle buyer. Toyota and the dealer may use this information to contact the customer when the remedy becomes available.

Keep the completed form on file at the dealership and send a copy to quality_compliance@toyota.com. In the subject line of the email, state "Disclosure Form 22TA01/22TB01" and include the VIN.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (**Non SET and GST dealers:** <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Toyota Certified Used Vehicle (TCUV)

The TCUV policy prohibits the certification of any vehicle with an outstanding Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a TCUV until all applicable Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

Toyota Rent-A-Car (TRAC) & Service Loaners

Toyota requests that dealers remove all TRAC and Service Loaner vehicles from service that are covered by a Safety Recall unless the defect has been remedied.

Customer Handling, Parts Ordering, and Remedy Procedures

Customer Contacts

Customers who receive the owner letter may contact your dealership with questions regarding the letter and/or the Safety (Noncompliance) Recall. Please welcome them to your dealership and answer any questions that they may have. A Q&A is provided to assure a consistent message is communicated.

Customers with additional questions or concerns are asked to please contact the Toyota Brand Engagement Center (1-888-270-9371) - Monday through Friday, 8:00 am to 8:00 pm, Saturday 9:00 am to 7:00 pm Eastern Time.

Head Unit Notifications

Head unit notifications are electronic messages that are displayed in the vehicle's audio system screen. Customers who receive head unit notification regarding this Safety (Noncompliance) Recall are requested to schedule an appointment with their authorized dealer to have this Safety Recall completed.

When these messages are received by the vehicle's Data Communication Module, the head unit will display a pop-up prompt stating that the vehicle has a new Safety (Noncompliance) Recall. The prompt will contain options to 'Snooze' or to 'View' the message. If a customer chooses 'Snooze', the message will continue to reappear every 20 minutes until the customer chooses 'View'. If a customer views and then closes the message, the message will be available in the Notification App if the customer chooses to review it again. If the vehicle's completion status remains incomplete for a period of 90 days from the message being viewed, the head unit may display a renotification pop-up prompt as an additional reminder to the customer to have this Safety (Noncompliance) Recall completed.

The message will completely clear from the vehicle once the following conditions are met: The Safety (Noncompliance) Recall is completed, the dealer has filed a claim, and the claim is approved by Toyota. Then the message will be cleared at the next clearing cycle, which currently happens weekly.

Owners who receive a head unit notification after having this Safety (Noncompliance) Recall completed can be advised to ignore the message. Owners with additional concerns can be directed to the Toyota Brand Engagement Center (1-888-270-9371) - Monday through Friday, 8:00 am to 8:00 pm, Saturday 9:00 am to 7:00 pm Eastern Time.

Salvage Title Vehicles

Every attempt should be made to complete an open Safety Recall when circumstances permit, unless noted otherwise in the Safety Recall dealer letter.

For complete details on this policy, refer to Toyota Warranty Policy [4.17](#), "What Is Not Covered by The Toyota New Vehicle Limited Warranty".

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Aurelia Vasquez (469) 292-3153 in Toyota Corporate Communications. Please do not provide this number to customers. Please provide this contact only to media.

Warranty Reimbursement Procedures

Loaner Vehicle or Alternative Transportation Reimbursement Procedure

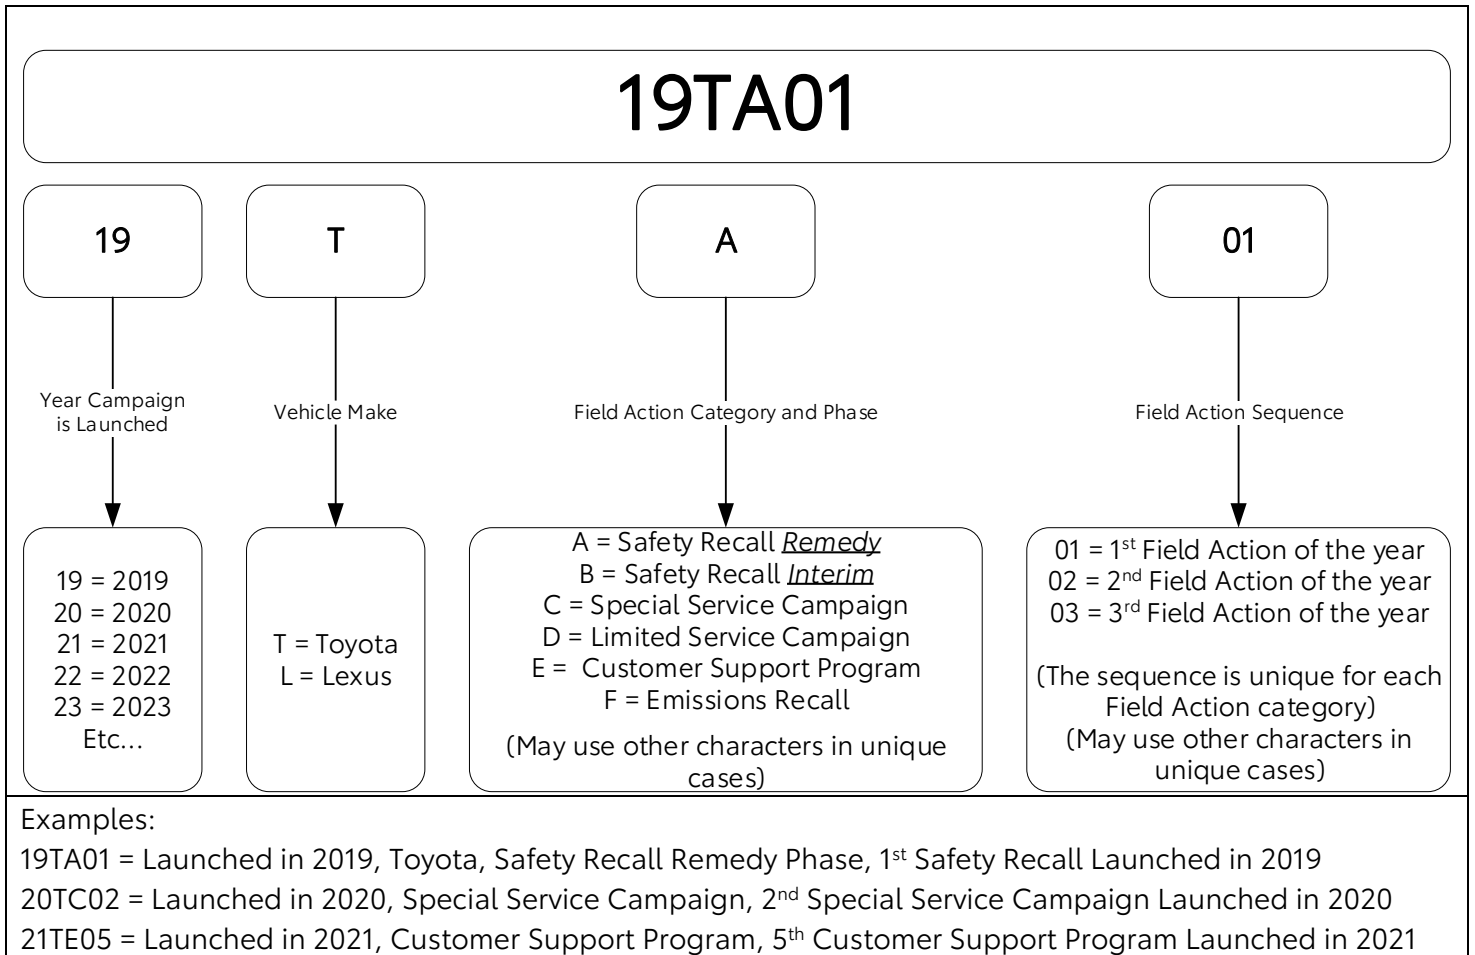

If a customer is uncomfortable driving their vehicle during the interim period, a loaner vehicle or alternative transportation through Toyota Rent-A-CAR (TRAC) can be claimed for \$42 per day.

Op Code	Description
TBD	Vehicle Rental 1-30 Days

NOTE:

- Rental invoice ***MUST*** be attached to all rental claims. These claims may be subject to debit if rental invoice is not attached.
- Rentals that exceed the maximum allowable daily rate will require DSPM authorization per the Toyota Transportation Assistance Policy (TTAP).

Campaign Designation / Phase Decoder

Please review this entire package with your Service and Parts staff to familiarize them with the proper step-by-step procedures required to implement this Safety (Noncompliance) Recall.

Thank you for your cooperation.

SAFETY (NONCOMPLIANCE) RECALL 22TA01 *(Interim Notice 22TB01)*

Certain 2021 Model Year Venza HV
Rear Turn Signal Lamps May Become Dim or Deactivated

Frequently Asked Questions

Original Publication Date: January 26, 2022

Q1: *What is the condition?*

A1: The rear turn signal lamp bulbs in the involved vehicles can temporarily become dim or deactivate after exposure to conditions such as heavy rain or car washing that causes condensation to form in the rear turn signal lamp. This condition may not meet certain federal safety requirements and may cause drivers in following vehicles to not know that the turn signal or the hazard lights have been activated, leading to an increased risk of a crash.

Q1a: *Are there warnings that this condition exists?*

A1a: While the condition is present, the driver may observe that the turn signal indicator on the instrument panel flashes faster than normal when activating the turn signal.

Q2: *What is Toyota going to do?*

A2: Toyota is currently preparing the remedy for this issue. When the remedy is available, Toyota dealers will replace both rear turn signal LED bulbs with improved ones **FREE OF CHARGE**, and if necessary, replace the rear turn signal lamp assemblies to fit with the improved bulbs **FREE OF CHARGE**.

Q3: *When will the remedy become available?*

A3: At this time, Toyota estimates that the remedy can be available in the second quarter of 2022.

Q4: *Which and how many vehicles are covered by this Safety (Noncompliance) Recall?*

A4: There are approximately 41,500 vehicles covered by this Safety (Noncompliance) Recall.

Model Name	Model Year	Production Period
Venza HV	2021	Mid-September 2020 – Late May 2021

Q5: *How does Toyota obtain my mailing information?*

A5: Toyota uses an industry provider who works with each state's Department of Motor Vehicles (DMV) to receive registration or title information, based upon the DMV records. Please make sure your registration or title information is correct.

Q6: *What if I have additional questions or concerns?*

A6: If you have additional questions or concerns, please contact the Toyota Brand Engagement Center at 1-888-270-9371 Monday through Friday, 8:00 am to 8:00 pm, Saturday 9:00 am to 7:00 pm Eastern Time.
