Hi [REDACTED],

We have a new Recall ANA2 and the repair is now available. There is only 1 VIN, which is registered to Porsche Nashville.

The TI is attached as well as available in PCSS and in the AfterSales Document database on PPN: <https://ppn.porsche.com/portal/docs/DOC-403966>

Would you please assist me by reaching out to them and asking them to get this customer in for the recall asap? The repair calls for the dealer to check the tires for uneven wear and to perform a suspension alignment.

Please let me know if you have any questions, thanks!

Best Regards/Mit freundlichen Grüßen,

Mitchell Grasser
