

## **NHTSA #22V-077 / FCA Campaign #Z11**

Campaign Update – 5/18/22

- Root cause remains unknown; FCA US and our supplier continue to work diligently to identify root cause.
- Remedy also remains under development. A firm plan has not yet been established in the absence of root cause.
- FCA US mailed interim notices to owners on 2/25/22.
- The Company continues to advise owners of these hybrid vehicles to refrain from recharging them, and to park them away from structures and other vehicles.
- In the event of questions or concerns, customers are encouraged to contact the FCA Recall Assistance Center at 1-800-853-1403.
