Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2021 GLB-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

Certain MY 2021 GLB-Class vehicles might not be equipped with the driver airbag module according to current production specifications. Depending on the driver airbag module installed in your vehicle, different consequences could result when the airbag deploys. If your airbag deploys, it might not provide its restraint function as intended. In addition, the airbag module might detach from its mounting location within the steering wheel hub during deployment and potentially injure occupants. Thus, in the event of a crash with a driver airbag deployment, the risk of injury to the driver and the occupants might be increased.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the frontal driver airbag module on the affected vehicles. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than 1 hour, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

What should YOU DO?

To find the most convenient authorized Mercedes-Benz dealer from your smartphone, scan the QR code to the left.
