RECALL #2022-0411
NHTSA # 22V097
April 2022

Dear Valued Lance Camper Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Lance Camper Mfg. Corp. Has decided that a safety which relates to motor vehicle safety, exists in certain model year 2022-1685 and 1985 trailers.

WHAT IS THE PROBLEM?

On certain Lance trailers affected by this recall, L.P. Hose not secured to frame allowing the hose to droop down and could allow the leaf spring shackle to make contact with the L.P. hose. If the leaf spring shackle made contact with the L.P. hose it could damage the hose causing it to leak Flammable L.P. gas and potentially cause a fire.

WHAT SHOULD YOU DO?

Turn off the propane at both of the propane cylinders, until the L.P. hose has been inspected and corrected.

Include with this notice are instructions and parts to correct the defect. If you wish to make the corrections yourself, follow the instructions carefully.

Once you have completed the repair or had an authorized Lance Camper dealer do the repair, please fill out the "Compliance Recall Only" section located on the left-hand side of the enclosed prepaid self-addressed reply card with the appropriate boxes marked. Sign and date the reply card where noted and place in the mail.

WHAT WILL LANCE DO?

With your continued satisfaction in mind, if you do not feel comfortable making this repair, contact an authorized Lance Camper dealer to make an appointment to have the work performed at no charge to you. The repair consists of securing the L.P. line on the passenger side axle with a loom clamp and screw. The repair will take approximately 30 minutes to complete.

For assistance locating an **authorized Lance Camper servicing dealer**, please call Lance Camper Owner relations toll-free at:
