**Mfr's Report Date:** February 22, 2022

**Components:**

SEAT BELTS: REAR/OTHER:BUCKLE ASSEMBLY  
SEAT BELTS:REAR/OTHER:ANCHORAGE

**Potential Number of Units Affected:** 5,305

**Problem Description:**

Porsche Cars North America, Inc. (Porsche) is recalling certain 2020-2021 Taycan vehicles equipped with an optional rear center seat. The center seat belt buckle wiring harness may obstruct access to the right rear seat lower child seat anchors, preventing a child seat from being properly secured. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 225, "Child Restraint Anchorage Systems."

**Consequence:**

An improperly secured child seat increases the risk of injury during a crash.

**Remedy:**

Dealers will reroute and secure the center rear seat belt buckle wiring harness and, as necessary, replace a damaged buckle, free of charge. Owner notification letters are expected to be mailed April 22, 2022. Owners may contact Porsche customer service at 1-800-767-7243. Porsche's number for this recall is ANA4.
