- A safety defect exists in your vehicle.
- Remedy parts are not yet available for your vehicle.
- We will contact you again once parts are available.

Dear Valued Mercedes-Benz Metris Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Metris vans, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2017-2022 Mercedes-Benz Metris vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

MBAG has determined that on certain Mercedes-Benz VS20 Metris vehicles, the upper and lower fuel hose connections for the fuel lines on the 4-cylinder engines may not be securely attached. This could lead to minor fuel leak at the upper connection that feeds the high-pressure fuel pump or lower connecting point of the transition hose, between the underbody fuel line and the Schrader valve. A fuel leak in the presence of a potential ignition source within the engine compartment could create the risk of a fire.

An authorized Mercedes-Benz Metris dealer will check the correct mounting of the upper and lower fuel hose connections and replace the clamps and the fuel hose if necessary.

Unfortunately, the parts to remedy this issue are currently not yet available.

We are working to obtain the necessary parts to correct this condition as quickly as possible. As the parts become available, we will send you another letter asking you to take your vehicle to an authorized Mercedes-Benz dealer to have the recall completed free of charge.

Should you have any concerns or questions regarding your vehicle before you receive the next recall letter when parts are available, please contact an authorized Mercedes-Benz dealer. If for any reason a dealer is unable to remedy your situation, we are always happy to hear from you. Please contact us at 1-800-367-6372. A vehicle identification number (VIN)-based recall lookup tool on our MBUSA.com website offers a search function that will indicate whether a vehicle has been subject to a safety recall, and whether that vehicle has had the free remedy performed.

Please visit www.mbvans.com/sprinter/owners-resources/recall and enter your 17 digit VIN in the VIN Look-up tool.

We also encourage you to sign up for recall alerts at www.nhtsa.gov/alerts.

In the event that you are no longer the vehicle owner, or have had a change of address, please complete the reverse side and return the updated information in the enclosed envelope. If this is a leased vehicle and the lessor and registered owner receive this notice, please forward this information by first class mail to the lessee within 10 business days to comply with Federal Regulations.

We apologize for any inconvenience this situation may cause you.

Sincerely,
Mercedes-Benz USA
