

Recall of Certain 50A Shore Power Inlets (P/N 93379) by ZH Brothers International

MARCH 31, 2022

Dear Valued Customer:

ZH Brothers International, the manufacturer and importer of Epicord Part No. 93379, 50A Shore Power Inlets, has initiated a safety recall of a specific population of these products. We have enclosed a copy of ZH Brothers' Amended Defect Information Report (DIR), which was filed with the National Highway Traffic Safety Administration (NHTSA) on March 26, 2022 (Recall No. 22E023). As we advised you in our "Product Containment Request" dated March 15, 2022, these parts were received into Patrick Distribution's stock on February 1 and February 9, 2022, and supplied to you between February 2 and February 22, 2022.

ZH Brothers is instructing customers to conduct a torque check on the lug bolts of inlets from the suspect lots. If proper torque cannot be confirmed, the inlet should be replaced.

We are working with ZH Brothers to facilitate this recall campaign. Accordingly, you should submit your claims for parts and labor through the existing Patrick Distribution warranty claims process.

If you have any questions, please contact Orrin Price at (574) 612-6271 or priceo@patrickind.com.

Thank you for your cooperation. We apologize for the inconvenience this issue may cause.

Sincerely,

Patrick Distribution
