

MACK TRUCKS RECALL ALERT

Subject: Safety Recall SC434, Mack LRe Steering Assist
Recall Number: SRA-M434
Date: April 1, 2022
Applicable Markets: U.S. Canada Export

Description

The steering system loses pressure and causes increased torque on the steering wheel.

This results in a potential for the driver to lose hydraulic assist during strong steering/evasive maneuvering which may result in a vehicle crash, property damage and/or personal injury.

The remedy is still under development.

Model and Model Years Affected

- Certain 2023 Mack LR Battery Electric Vehicles built January 1, 2022 through March 29, 2022.

Vehicle Quantities

- 37 (33 US, 4 CAN)

Dealer Responsibilities

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal on April 1, 2022
- Owner notification letters will be released on or before May 28, 2022

Contact
