Dear «Dealer\_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2022 Passport Travel Trailers. As a result, Keystone RV is conducting a safety recall.

***Reason for  
this recall***

It has been decided that vehicles in this population have 3500 pound axles and ST205/75R15D tires and rims rather than the 4400 pound axles and ST225/75R15D tires and rims as specified on the Federal Identification Tag. Undersized axles, tires, and rims can be overloaded leading to an increased risk of vehicle crash.. The vehicles included in the recall are:

**2022 Passport Travel Trailers, Models 2704RKWE, 2951BHWE**

**Serial Number Range: NX411333 - NX414355**

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important:** If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery. The unit VIN(s) our records indicate are presently in your inventory or have been sold are as follows:

«VIN1»                      «VIN2»                      «VIN3»                      «VIN4»  
-- Serial numbers with '\*' have been retail sold --

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Enclosed is a copy of the Safety Advisory #22-429, which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the enclosed Safety Advisory, please feel free to contact us.

Sincerely,

**KEYSTONE RV COMPANY**
