SAFETY ADVISORY 22-429

Safety Recall:

US: 22V-206

CAN: 2022-166

Keystone,

mill@keystonerv.com

Dear :

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2022 Passport Travel Trailers. As a result, Keystone RV is conducting a safety recall.

#### Reason for This Recall

It has been decided that vehicles in this population have 3500 pound axles and ST205/75R15D tires and rims rather than the 4400 pound axles and ST225/75R15D tires and rims as specified on the Federal Identification Tag. Undersized axles, tires, and rims can be overloaded leading to an increased risk of vehicle crash. The vehicles included in the recall are:

#### **Year, Model**

2022 Passport Travel Trailers, Models 2704RKWE, 2951BHWE

#### **Serial Number Range**

NX411333 - NX414355

#### VINs in Your Inventory

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs in campaign # 22-429.

#### Advisory Instructions

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. [Please click here for a copy of Safety Advisory 22-429](#) which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY
