

Recall 223: Seat Belt Pretensioner Replacement – Remedy Not Available - Dealer Best Practice

April 07, 2022

Updates to this Document	Date
<ul style="list-style-type: none">Remedy Not Available	04/07/2022

As required by federal law, dealers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Dealers must also perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.

Description of Campaign:

Hyundai is initiating recall campaign 223, a safety recall to address a condition involving the driver's side seat belt pretensioner in certain Hyundai vehicles in the U.S. and Canada. This recall adds vehicles to the subject populations of Recalls 211, 219, and 220 in an effort to increase the number of parts returns available for this ongoing investigation. This recall is not based on additional occurrences in the U.S. or global markets. Hyundai is conducting this action to enhance efforts in identifying root cause and ensure the safety of its vehicles for Hyundai customers.

The front driver and/or passenger-side seat belt pretensioners in the subject vehicles were installed from a certain production lot containing pyrotechnic-type pretensioners that may deploy abnormally during a crash. At the time of this filing, the cause of the abnormal deployment is unknown. Hyundai is recalling vehicles equipped with pretensioners produced within certain production lot(s) to conduct detailed parts analyses. The part inspections and investigation will actively continue to determine if a specific root cause or trend exists.

Affected Vehicles:

- Certain 2020MY Hyundai Accent containing pretensioners from certain production lots built within approximately one (1) month before/after the certain production lots associated with Recalls 211/219/220
 - Certain 2021-2022MY Hyundai Elantra containing pretensioners from certain production lots built within approximately one (1) month before/after the certain production lots associated with Recalls 211/219/220
- [To check vehicle specific recall and campaign applicability, access the "Vehicle Information" screen via WebDCS.](#)
- [For this recall, please note that there are no vehicles currently in dealer stock.](#)

Remedy Information:

The remedy is currently under development and additional information will be provided once a countermeasure has been developed for release.

Recommended Alternative Transportation:

It is recommended that Service Rental Cars (SRCs) are made available for customers that are concerned with the safe operation of their vehicle prior to release of remedy.

Best Practice Checklist

Reservation: Did you check WebDCS for additional campaigns or recalls?

- Yes
- No

Reception: Did you offer the customer Alternative Transportation?

- Yes
- No

[Additional Training & Resources](#)

[Hyundai Learning Portal](#)

Remedy is currently under development. Applicable training courses related to this recall, if applicable, will be provided once a remedy has been released by HMA.

[Warranty](#)

Warranty information will be updated once remedy has been released by HMA.

[Parts](#)

Parts, if applicable, will be provided once a remedy has been released by HMA.

[Customer Notification](#)

NHTSA has been notified of this recall. Owners will be mailed notification letters in late May 2022.

[Customer FAQs](#)

Q1: What is the issue?

A1: The front driver and/or passenger-side seat belt pretensioners in the subject vehicles were installed from a certain production lot containing pyrotechnic-type pretensioners that may deploy abnormally during a crash. At the time of this filing, the cause of the abnormal deployment is unknown. Hyundai is recalling vehicles equipped with pretensioners produced within certain production lot(s) to conduct detailed parts analyses. The part inspections and investigation will actively continue to determine if a specific root cause or trend exists.

Q2: What is the safety concern?

A2: An abnormal pyrotechnic pretensioner deployment could cause metal fragments to enter the vehicle occupant compartment, which may result in injury to vehicle occupants.

Q3: Have there been any accidents or injuries?

A3: As of the date of the filing, Hyundai is aware of three crash events resulting in injuries (two incidents in the U.S. and one in Singapore).

Q4: What will be done during the recall service at the dealer?

A4: Hyundai Motor America plans to notify owners of affected vehicles by first class mail with instructions to bring their vehicles to a Hyundai dealer to have the seat belt pretensioner(s) replacement remedy performed. This remedy will be offered at no cost to owners for all affected vehicles, regardless of whether the affected vehicles are still covered under Hyundai's New Vehicle Limited Warranty.

Additionally, Hyundai will provide owners of affected vehicles reimbursement for out-of-pocket expenses incurred to obtain a remedy for the recall condition in accordance with the reimbursement plan submitted to NHTSA on February 24, 2022.
