Lamborghini Huracan EVO model year 2020 and STO model year 2022.

“Gearbox Oil insufficient quantity”

■ What is the issue with the affected vehicles?

Gearbox oil quantity too low may lead to short-term hydraulic pressure drop resulting in clutch slippage. In extreme driving situations (racetrack operation), the transmission oil can foam and leak out of the gear vent.

■ What is the cause of this condition?

A defective scale at the supplier delivered wrong oil weight data for oil filling for a certain number of transmissions.

■ What effect does the condition have?

If leaked transmission oil contacts hot exhaust system parts, there is a possible risk of fire.

■ How can the condition be identified?

In the event of clutch slippage, the driver receives a warning message on instrument cluster.

Is there any risk for the car occupants?

Automobili Lamborghini S.p.A. is not aware of any accidents or other incidents resulting in injury to a person or damage to property.

■ Which vehicles are affected?
