

New Safety Recall Advanced Communication – Z36

FCA US LLC (FCA US) has announced a safety recall on certain 2022 Model Year (MP) Jeep® Compass vehicles.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with an off-location weld(s) on the front seat head restraint frames. Head restraints that do not meet the strength requirements may result in an increased risk of injury to seat occupants during certain crashes.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No.202a. S4.1 requires that "a head restraint that conforms to either S4.2 [static strength] or S4.3 [dynamic strength] of this section must be provided at each front outboard designated seating position." Vehicles built with a front seat head restraint frame manufactured with an off-location weld may not meet the FMVSS 202a S4.2 static strength requirements.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to replace both front seat head restraints. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2nd Quarter of 2022.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
