**URGENT SAFETY RECALL**  
**This is an important Safety Recall. The remedy will be performed FREE OF CHARGE to you.**

**IMPORTANT SAFETY RECALL (Interim Notice)**

**Certain 2020 through 2022 Model Year Porsche Taycan Vehicles  
Porsche Recall ANA5 / NHTSA ID 22V-278**

Dear [redacted]

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that a defect, which relates to motor vehicle safety, exists in certain 2020 to 2022 Model Year Porsche Taycan Vehicles.

**What is the issue?**

On affected vehicles, a wiring harness under each of the front seats may get caught as the seat is moved forward or back. If this happens, it could make the seat harder to move, or inoperable. The wiring harness may be damaged and could affect the supplemental restraint system (air bags, seat belt pre-tensioners), causing the red air bag warning light to illuminate.

**What will Porsche do?**

Porsche is conducting a safety recall to check the wiring harnesses on affected vehicles and further secure them under the seats as necessary, as well as replace any part of the wiring harness showing any damage, free of charge. Porsche is currently working to obtain remedy parts. You will receive a second notice once the remedy is available.

**What should you do?**  
  
You can continue to use your vehicle until the remedy has been carried out.  
  
**If your vehicle has the red airbag warning light illuminated, please reach out to your Porsche Dealer immediately.**  
  
Please wait for our follow up letter to bring your vehicle into a dealer for a remedy.
