

IMPORTANT SAFETY RECALL 22508 NHTSA RECALL NO. 22V-282

JUNE 2022

This notice applies to your vehicle identified on the enclosed card.

Dear INTERNATIONAL® Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Navistar has decided that a defect which relates to motor vehicle safety exists in certain 2022 and 2023 HV and MV series trucks built 08/26/2021 thru 03/18/2022 and 2022 RE commercial buses built on 10/27/2021 with feature code 08TXK or 08TXM (Bendix Wingman Prewire option).

REASON FOR THIS RECALL

These vehicles may have been built without the warning label to notify the driver that the collision mitigation system is not operational.

RISK TO MOTOR VEHICLE SAFETY

Failure to warn the driver that the collision mitigation system is not operational may increase the risk of a vehicle crash.

DEFECT REMEDY

The repair will involve installing the enclosed label on your vehicle if there is no forward radar unit installed.

ACTIONS YOU SHOULD TAKE

1. Park your vehicle on a flat level surface, set the transmission to park or neutral.
2. Set the parking brake and turn ignition key to OFF position.

Figure 2

1 Radar Not Installed

3. Inspect to see if forward radar unit is installed at center of front bumper.
 - a. If radar unit is installed (Figure 1, Item 1), no additional action is required. Proceed to Step 9.
 - b. If radar unit is not installed (Figure 2, Item 1), proceed to next Step.
