Safety Recall 22V298 - Trailer Hand Brake Valve Malfunction

This notice applies to your vehicle with {{VIN}} - Chassis Serial Number {{ UE }}

Important Safety Recall

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Kalmar has decided that a defect, which relates to motor vehicle safety, exists in Ottawa T2 model terminal tractors manufactured between January 1, 2015 and April 1, 2022. As a result of this decision Kalmar has initiated a recall of the affected vehicles.

Our investigation has determined that Kalmar Ottawa T2 vehicles with a trailer hand brake valve option can unintentionally cause the trailer parking brake valve to set and cause unexpected vehicle motion if the trailer hand brake valve is released too quickly. The parking brake can unexpectedly set, increasing the risk of a crash.

In order to remedy the situation, you should contact your local Kalmar terminal tractor certified dealer and have them perform field campaign SB22RC0001. Kalmar will replace the tee fitting that ties the trailer handbrake valve to the parking brake valve and replace it with a union. The trailer hand brake valve vent is then routed through the floor of the cabin under the brake treadle. The remedy will take approximately 30 minutes (½ hour) to complete. The remedy will be performed at no cost to you.

If you have any questions regarding this repair contact your local Kalmar terminal tractor authorized dealer or the Kalmar Product Support Department at 1-785-229-6327.

If you are the lessor of this vehicle please forward a copy of this notice to the lessee within ten days to comply with federal regulations.

If you believe Kalmar has failed or is unable to remedy the defect within a reasonable time you may wish to write to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave, SE, Washington, DC 20590; or call the Vehicle Safety Hotline at 1-888-327-4236 or go to <http://www.safercar.gov>.

If you have any questions or concerns regarding this repair, contact the Kalmar Product Support Department at 1-785-229-6327.

Yours sincerely,
Eric Swanson
