## **IMPORTANT SAFETY RECALL**

6/22/2022

<Name>

<Address>

<City, State, ZIP>

This notice applies to your vehicle, <VIN>

NHTSA Recall No: 22V-307

Dear ElectraMeccanica Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. ElectraMeccanica Vehicles Corp. has decided that Model Year ("MY") 2021 SOLO vehicles fail to conform to Federal Motor Vehicle Safety Standard ("FMVSS") No. 108 "Lamps, reflective devices, and associated equipment". As a result, ElectraMeccanica is conducting this safety recall. Our records show that you are the owner of a vehicle affected by this action.

### **REASON FOR THIS RECALL**

If either of the rear turn lamps has a short circuit, you will not receive an indication of the lamp failure on the dash display. Normally, the turn lamp indicator will flash much faster or will not flash at all to warn you that the lamp is not working. If this happens, you may think you have signaled your intent to turn or change lanes but other road users will be unaware, increasing the risk of a crash or injury to pedestrians.

### **WHAT ELECTRAMECCANICA WILL DO**

ElectraMeccanica will update the Body Control Module (BCM) software at **NO CHARGE** to you. The new software will enable detection of the rear turn lamp's short circuit condition and a consequent change in frequency of the corresponding turn signal pilot indicator.

### **WHAT YOU SHOULD DO**

Please contact ElectraMeccanica by calling 1-888-457-SOLO (Option #1) to schedule a service appointment and have this important remedy performed on your vehicle.

For awareness, the Body Control Module (BCM) software update will take approximately 1 hour. However, we may need to keep your vehicle for a slightly longer period. Please bring both your USB card owner's manual and both vehicle keys to this service appointment.

Until you can schedule the update to the vehicle, please perform a walk around check of your vehicle prior to driving it, ensuring that your turn signal indicator lamps are functioning. More information can be found in your Owner's manual Pre-Drive Inspections Checklist page 2-6 <https://www.electrameccanica.com/solo-manual/>.

If you believe that ElectraMeccanica has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, DC 20590, by calling 1-888-327-4236 (TTY: 1-800-424-9153), or by visiting <http://www.nhtsa.gov>.

Federal law requires any lessor who receives a notification of a noncompliance or safety-related defect determination pertaining to any leased motor vehicle to send the notice to the lessee within 10 days.

If you no longer own the vehicle or have any questions or need assistance, please contact ElectraMeccanica by calling 1-888-457-SOLO (Option #1).

Thank you for driving Solo.
