

Part 573 Safety Recall Report

22V-350

Manufacturer Name : Oliver Travel Trailers, INC.

Submission Date : MAY 18, 2022

NHTSA Recall No. : 22V-350

Manufacturer Recall No. : NR

Manufacturer Information :

Manufacturer Name : Oliver Travel Trailers, INC.

Address : 737 Columbia Highway

737 Columbia Highway TN 38462

Company phone : 1-866-205-2621

Population :

Number of potentially involved : 40

Estimated percentage with defect : 50 %

Vehicle Information :

Vehicle 1 : 2021-2022 Oliver Travel Trailer Elite

Vehicle Type : LOW VOLUME VEHICLES

Body Style : OTHER

Power Train : NR

Descriptive Information : How determined: NHTSA (Beth Wolfe) notified via e-mail Kyle Bobo, OTT Purchasing on 11-May-22 supplier Dometic Corporation recall 22E-021 included cooktop with burner control valve damage, may cause gas leak. Dometic Corporation provided serial numbers for recall.

How products differ: Products identified by serial were produced by supplier Dometic containing a defective sub component.

Identified Oliver Elite Travel Trailer models 2021 / 2022 = 40

Production Dates : MAR 10, 2021 - APR 28, 2022

VIN Range 1 : Begin : 1Z9BC1817MH305078 **End :** 1Z9BC181XNH305173

Not sequential

Description of Defect :

Description of the Defect : On Purchased Part Dometic Stove Model #PI8022 the burner control valves may become damaged, causing a gas leak.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : In a worst case scenario, a gas leak in the presence of an ignition source can increase the risk of a fire.

Description of the Cause : Supplier Dometic has identified the cause as the burner control valve may have incurred abrasions, internally or externally, on the mating metal sealing surfaces of the burner control valve that may lead to leaks.

Identification of Any Warning that can Occur : While being used the smell of gas may precede any ignition and presence of flame.

Involved Components :

Component Name 1 : Dometic Cooktop

Component Description : Cooktop

Component Part Number : PI8022

Supplier Identification :**Component Manufacturer**

Name : Dometic Corporation

Address : 509 South Poplar Street
Lagrange Indiana 46761

Country : United States

Chronology :

On 5/11/2022 NHTSA (Beth Wolfe) notified via e-mail Kyle Bobo, OTT Purchasing supplier Dometic Corporation recall 22E-021 included cooktop PI8022 with burner control valve damage, may cause gas leak. Dometic Corporation provided serial numbers for recall. On 5/12/2022 Oliver Travel Trailer placed all PI8022 stoves in containment to verify suspect serial numbers; Resulting quantity eleven P18022 stoves serialized within the Dometic serial range were rejected, removed from stock and quarantined.

On 5/12/2022 Oliver Travel Trailers and Oliver Sales and Service inspected produced with Elite model campers with P18022 stoves installed to identify serial numbers within the Dometic suspect serial range; Resulting in no findings.

As of 5/13/2022 all P18022 stoves in our possession have been confirmed to be in compliance based on the Dometic serial numbers information provided.

Description of Remedy :

Description of Remedy Program : The plan is to contact customers who purchased an Elite model travel trailer manufactured between 03/10/21 and 04/28/22 requiring serial number verification, replacement as required for the cooktop. Each customer will be furnished a written explanation of the issue, how to identify the problem, how to have their trailer inspected and if the issue is present have replaced by authorized service center. Oliver Travel Trailers will facilitate communications with the customers, Dometic to have documented the steps to install replacement cooktop and will handle the payments for the cost of the inspection and installation.

How Remedy Component Differs from Recalled Component : The defective cooktop stove PI8022 has a serial number range 1109361003460001 - 11093610034600550 or 12393610034600001-12393610034600550 production Aug 01, 2020 - Jun 30,2021. The remedy requires replacement of the cooktop by Dometic authorized service centers.

Identify How/When Recall Condition was Corrected in Production : This was corrected immediately in production on all Elite model campers in assembly, plus finished Elite campers awaiting delivery. All cooktop stove serial numbers were visually verified, no cooktops were found in production or campers in stock containing recalled serial numbers.

Recall Schedule :

Description of Recall Schedule : Once approval of documents is received notification of owners will begin immediately.

We do not use dealers.

This process will be actively managed to ensure inspection takes place.

Planned Dealer Notification Date : NR - NR

Planned Owner Notification Date : MAY 20, 2022 - AUG 31, 2022

* NR - Not Reported
