QUALITY TRAILER BUILDERS

May 13, 2022

To: Cross Country Dealer

RE: Pacific Trailer Products, Inc. 2 5/16" A-frame Coupler Recall

Please see the attached recall information for the 2 5/16" a-frame coupler produced by Pacific Trailer Products in July of 2021. Although to date, we have not had any notification of a problem from our dealers regarding this coupler, we want to keep you informed. Shown below is a list of trailers that could possibly be affected.

<u>Date</u>	<u>Invoice #</u>	<u>Dealer</u>	<u>Model</u>	<u>VIN</u>
3/22/22	28386	Ackerman Equip.	612DT8LP	4C91F17
3/22/22	28386	Ackerman Equip.	4T20	4C91F25
3/22/22	28386	Ackerman Equip.	4T18	4C91F232

The coupler that is affected will be stamped with QC#GTR202107XX

Only the couplers with that QC code are affected. Also included with this notice, is the product bulletin from Pacific Trailer Products, showing the defective weld versus the correct weld.

Please contact the customers that the above units were sold to. The customer will need to check the QC code on the coupler. If the code matches, the customer will need to bring the trailer back to your location, for your inspection. If the coupler fails your inspection, please contact us for further instructions.

Please feel free to reach out to us with any questions or concerns.

Thank you,
The Cross Country Mfg., Inc. Team
