REF #: ICI22-030
Effective: 07/18/2022
Release: 07/18/2022

SUBJECT: FL935 TPMS Recall – Replacing SF644

This letter is to inform you that recall FL935 is replacing field service campaign SF644. On 7/18/2022, SF644 will be terminated and FL935 will be activated.

If you already have SF644 repairs complete with a repair date of 7/18/2022 or earlier, then you may still submit an SF644 claim. Any repairs performed after 7/18/2022 must follow the FL935 recall bulletin and be filed as an FL935 recall claim.

If you submit an SF644 claim, please inform the warranty campaigns group via a WSC ticket that you have done so. This will alert us to enter a closing administrative claim on FL935 since you have already completed the repair under SF644.

If you have questions or need further information, contact the Warranty Campaigns Department by submitting an inquiry through the Warranty Support Center (WSC) Link on DTNAConnect.
