STOP! DO NOT SELL NEW VEHICLES IN DEALER INVENTORY.

★ IMPORTANT

\*\*DEALER STOCK & RETAIL VEHICLES\*\*

Vehicle repairs related to safety recalls are critically important and must be performed properly in accordance with TSB procedures. Review this bulletin in its entirety prior to beginning any repair work.

As required by federal law, dealers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Dealers must also perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.

Access Hyundai Motor America’s "Vehicle Information" screen (VIS) via WEBDCS to identify open recalls.

**Important Notice regarding Related Recalls 211:**

Recall 231 supersedes recall 211 as outlined below and will be deactivated. Any repairs performed in accordance with the respective 211 TSBs must have **a repair order (RO) open date prior to 07/15/2022**. Labor operation codes applicable to superseded recalls and vehicle models will be deactivated and related claims must be submitted by 07/30/2022.
