IMPORTANT SAFETY RECALL

This notice applies to your vehicle(s), see VIN list below.

Dear Customer,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Prevost Car US Inc. has decided that certain 2021 X3-45 Commuter Coaches fail to conform to Federal Motor Vehicle Safety Standard No.210 Seat Belt Assembly Anchorages.

DEFECT DESCRIPTION

On the affected vehicles, one of the bolts that secure the rear bench seats' frame to the vehicle's body was not installed during the manufacturing process. One bolt is therefore missing in the rear passenger bench assembly.

SAFETY RISK

If the vehicle is involved in a crash, the rear seats could separate from the vehicle's body. In this event, the passengers would be inadequately restrained, thus increasing the risk of injury. Prevost has not received any reports of death or injury associated with this defect.

IDENTIFICATION OF ANY WARNING THAT CAN PRECEDE

There is no warning with this issue. The missing bolt is hidden under the seat's cushion.

REMEDY PROGRAM

Prevost has released a repair procedure to remedy the affected vehicle population. The service and required parts will be provided free of charge.

We are submitting this recall report to fulfill 49CFR573/577 requirements related to regulatory noncompliance.
