

To: All Subaru Retailers

From: Subaru of America, Inc. – Service Department

Date: August 29, 2022

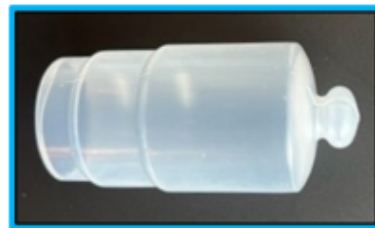

Re: ***Special Service Tool Shipment: SOA635173 for completion of upcoming WRE-22 Backup Lamp Switch Failure Safety Recall***

The following special tool kit is being shipped directly to all Subaru retailers during the week of August 29th as kit SOA635173. The kit contains essential tools to complete the upcoming WRE-22 Backup Lamp Switch Failure Safety Recall. Each retailer will receive ONE kit free of charge. Due to limited available inventory, additional kits are not available at this time. Images of the contents and individual tool part numbers are supplied below.

The Extended Universal Socket (p.n. 18270AA090) is used for removing and installing the back-up lamp switch.

The Extension Cap (p.n. 18678AA010) is used to prevent any unwanted oil loss during work procedures.

The Green Clip Pin D8.5X10 (p.n. 909130096) is used for positioning the shift rod and shift lever arm when installing the locking spring.

If you have questions, please contact the Subaru Parts Information Coordinators (PIC Team) at: 866-782-2782.
