DESCRIPTION:

This Safety Campaign is being issued to replace CM2450 Engine Control Modules (ECM) on certain engines. ECMs may develop an internal electrical short, possibly resulting in an engine stall without warning. This Safety Campaign authorizes certified repair locations to replace the ECM and perform a recalibration.

Cummins has reported this issue to the U.S. National Highway Traffic Safety Administration (NHTSA), which has assigned it Recall Number 22E-063.

ACTION:

In order to qualify for repair under this field action, an engine:

- 1 will be covered regardless of coverage status, and
- 2 **must** show as OPEN on QuickServe® Online for this field action.

NOTE: The ESN list is attached for reference.

After verifying that the engine meets the above requirements, perform the following actions:

- 1 Replace ECM in accordance with repair procedure 19-031 within appropriate service manual
- 2 Recalibrate ECM in accordance with repair procedure 19-032 within appropriate service manual

MATERIAL DISPOSITION:

Where applicable, items removed should be returned to ReCon for core credit. Unless otherwise indicated, items with no core liability can be scrapped.

REIMBURSEMENTS:

Parts:

NOTE: All parts listed are OPTIONAL. Claim **only** the parts required to complete the repair. Please note that Pre-Authorization is required to secure parts to complete the directed repairs. Please follow your normal parts channel processes to secure the Pre-Authorization from Customer Order Management (COM). Where multiple ECMs are needed, eligible ESNs **MUST** be provided to secure multiple ECM order requests.

NOTE: ReCon (RX) parts should be used and claimed when performing all Cummins Field Actions. New or NX parts should **only** be used when making before-in-service repairs. Additionally, due to local laws, RX parts may **not** be available for use in the repair. If this is the case for your region, use the New part equivalent of the appropriate ReCon part. Further, if RX parts are **not** readily available to complete the repair in a timely fashion, the new part equivalent can be secured and used for the repair.

The following parts are covered under this field action:

Part Number	Quantity	Description
557239100NX	1	MDL,CNT (OPTIONAL)
557239100RX	1	MDL,CNT (OPTIONAL)

NOTE: SRTs to gain access that are required to complete the repair, that are sufficiently explained in the claim narrative, may also be claimed on this action.

NOTE: All SRTs listed are OPTIONAL. Select **ONLY** the appropriate SRTs for the repair performed.

Labor using applicable Access Code and Time:

Travel:

Travel is covered under this field action. Towing is covered under this field action.

Other Claimables:

Consumables are covered under this field action.

NOTE: Additional parts, such as o-rings, gaskets and fasteners, that are required to complete the repair, but **not** listed, may be claimed in Other Claimables. Please consolidate all consumables and claim them as one line item in Other Claimables titled CAMPAIGN SUPPLIES or other appropriate selections. Please include brief summaries on the details of items claimed. A lack of documentation in the narrative may result in a reduction in claim reimbursement or claim denial.

Claim Instructions:

For Cummins Dealers, claims for this Field Campaign **must** be filed via **RAPIDSERVE™** Web (rsw.cummins.com). For information regarding **RAPIDSERVE™** Web, please reference the "Warranty" tab in QuickServe® Online. If there are additional questions, please contact your local Cummins Distributor.
